Mission Statement

The mission of the Towson University **Center for Adults with Autism Spectrum Disorders** is to assist young adults with autism spectrum disorders in leading productive and fulfilling lives as integrated members within their communities by supporting education for professionals who serve this population; offering and evaluating best models for programs and services; supporting applied research by faculty and students; and providing links between community and academic resources.

The Towson University **Center for Adults with Autism Spectrum Disorders** was established in February 2008 with a generous donation from Therese and Douglas Erdman, in order to “empower young adults who have autism to keep learning and to live life to their fullest.”

Resources & Activities

The Towson University **Center for Adults with Autism Spectrum Disorders** is focused on being an interdisciplinary resource that supports education of professionals and those interested in autism; facilitates academic and community linkages; and fosters social opportunities for young adults with autism and their families.
