

West Village Grand Opening Brings More Campus Beds, Parking, and Dining Options

Volume 1, Issue 1, Fall 2011

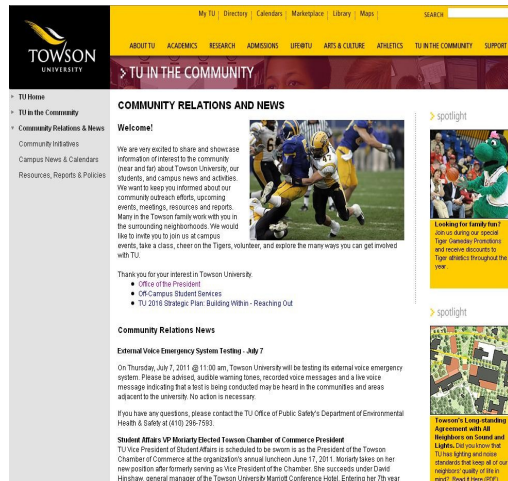

The West Village now boasts four residence halls with more than 1,300 beds.

The summer frenzy of campus construction west of Osler Drive has delivered one of the campus's most remarkable transformations. On September 7 at 4 p.m., Towson will celebrate the Grand Opening of four new buildings in the West Village. A 1,500 space parking garage, a second student union—The West Village Commons, and two new residence halls with 651 additional beds were built with LEED-silver certified energy standards and will be open for public tours. Community members are encouraged to attend. Plan your visit with our [Campus Map](#).
