### ACADEMIC CALENDAR

#### EMERGENCY CLOSING POLICY

In the event that weather or other emergency conditions warrant the early closing, all-day closing or delayed opening of Towson University, an announcement will be made through the following communication channels:

- Towson University homepage
- TU Emergency Text Message Alert (registration required)
- Campus-wide email
- University Facebook page
- University Twitter feed
- Local radio and television stations

Such schedule adjustments will also be available on the Towson University Information Line, 410-704-2000. Please DO NOT call the University Police Department with university closing-related questions. The university will not post an announcement that the university is open. No announcement means "business as usual."

When the main campus is closed, all events (including those sponsored by off-campus organizations) are cancelled. The university will not make any announcements about individual department or program activities. Towson University announcements of delayed opening or closure apply to the main campus, as well as Towson City Center, 7400 York Road and Terracedale.

Off-campus programs and courses adhere to the announcements applicable to the off-campus facility. (For example: Towson University in Northeastern Maryland follows Harford Community College's emergency closing and delayed opening decisions.)

#### FALL TERM 2020

www.towson.edu/coronavirus/frequently-asked-questions.html
# How College Is Different From High School

## Following the Rules in High School
- Your time is structured by others.
n- You can count on parents and teachers to remind you of your responsibilities and priorities.
- Each day you proceed from one class directly to another, spending six hours each day—30 hours a week—in class.

## Choosing Responsibly in College
- You manage your own time.
- You must balance your responsibilities and set your own priorities.
- Schedules tend to look lighter than they really are. You often have hours between classes; class times vary throughout the day and evening; and you spend only 12 to 18 hours of each week in class.

## GOing to High School Classes
- The school year is 36 weeks long; most classes extend over both terms.
- Classes generally have no more than 35 students.
- You may study outside class as little as 0 to 2 hours a week, and this may be mostly last-minute test preparation.

## Succeeding in College Classes
- The academic year is divided into two separate 15-week terms, plus a week for exams. Most classes last one term.
- Classes may vary from 20 to 100 students.
- A recent study shows successful students study at least 15 hours per week. Studying includes any time spent on classes such as tutoring, meetings with instructors and review sessions.

## Tests in High School
- Testing is frequent and covers small amounts of material.
- Make-up tests are often available.
- Teachers frequently conduct review sessions, pointing out the most important concepts.

## Tests in College
- Testing is usually infrequent and may be cumulative, covering large amounts of material. You, not the professor, need to organize the material to prepare for the test. A particular course may have only two or three tests per term.
- Make-up tests are seldom an option; if they are, you need to request them.
- Professors rarely offer review sessions, and when they do they expect you to be an active participant, prepared with questions.

## Guidance and Counseling in High School
- Your high school guidance counselor will schedule your classes for you to meet state minimum requirements for graduation.
- Guidance counselors will help you with college applications and ACT/SAT testing.

## Academic Advisers in College
- First year students will meet with their assigned FYE adviser to talk about college goals and how to achieve them. You will discuss all the requirements you need for graduation. Beginning with your second term, you will enroll in classes on your own. You will be expected to monitor your progress toward graduation by referring to your Academic Requirements Report online.
- Academic advisers can provide referrals to other campus resources such as financial aid, study abroad, academic success resources and the Career Center. Academic advisers can assist you with transferring coursework from another college so that it applies to your Towson University degree requirements.
Teachers check your completed homework. Professors may not always check completed homework but they will assume you have done it and expect you to perform the same tasks on tests.

Teachers approach you if they believe you need assistance. Professors are usually open and helpful but most expect you to initiate contact if you need assistance. All professors allocate office hours, a set time each week when students can drop in.

Teachers are trained in methods to share knowledge with students. Professors have been trained as experts in their field and vary in their teaching methods.

Teachers provide you with information you missed when you were absent. Professors expect you to get any missed notes from classmates.

Teachers present material to help you understand the material in the textbook. Professors may not follow the textbook. They may give illustrations, provide background information or discuss research about the topic you are studying. You are expected to relate textbook readings to the class.

Teachers often write information on the board to be copied into your notes. Professors may lecture nonstop, expecting you to identify the important points in your notes. Good notes are a must.

Teachers often take time to remind you of assignments and due dates. Professors expect you to read, save and consult the course syllabus. The syllabus spells out exactly what is expected of you, when assignments are due and how you will be graded.

Teachers carefully monitor class attendance. Professors may not formally take roll, but they are still likely to know whether or not you attended.

Teachers impart knowledge and facts, sometimes drawing direct connections and leading you through the thinking process. Professors expect you to think about and synthesize seemingly unrelated topics.

<table>
<thead>
<tr>
<th>GRADES IN HIGH SCHOOL</th>
<th>GRADES IN COLLEGE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grades are given for most assigned work.</td>
<td>Grades may not be provided for all assigned work.</td>
</tr>
<tr>
<td>Consistently good homework grades may raise your overall grade when test grades are low.</td>
<td>Grades on tests and papers usually provide most of the course grade. Courses may only have two or three tests or assignments.</td>
</tr>
<tr>
<td>You may graduate if you have passed all required courses with a grade of D or higher.</td>
<td>You may graduate only if your grade point average in classes meets major and university requirements, a minimum of C (2.0) but often higher.</td>
</tr>
<tr>
<td>Your first test grades, especially when they are low, may not have an adverse effect on your final grade.</td>
<td>Watch out for your first tests. These are usually “wake-up calls” to let you know what is expected, but they may also account for a substantial part of your course grade.</td>
</tr>
<tr>
<td>Many opportunities to earn extra credit</td>
<td>Limited or no opportunities for extra credit work, especially when requested at the last minute</td>
</tr>
</tbody>
</table>

Adapted from Southern Methodist University (www.smu.edu/alec/transition.asp) and Ball State University (http://cms.bsu.edu/Academics/Advising.aspx).
Towson University is committed to providing comprehensive advising designed to enrich the educational experiences of every student. Advising provides the opportunity for students to identify valuable campus resources, to understand university policies and procedures, and to develop an academic plan that successfully fulfills both personal and educational goals. However, the value of advising as a campus resource is dependent on your level of engagement as a student. A successful and rewarding advising experience requires both the adviser and the advisee to actively work together as a team.

The First Year Experience (FYE) is an advising program for freshmen that pairs each incoming student with a professional adviser or a faculty member who has received special training. You and your FYE adviser will work together throughout the first year to help you gain an understanding of the college experience and to create a foundation for academic success. All FYE students must meet with their assigned FYE adviser each term to discuss their academic plan and to have their FYE advising hold removed prior to registering for classes.

After the freshman year, students who have declared a major will transition to major-based academic advising. Upon declaring a major, the student will be assigned to a departmental faculty adviser. Students who have not declared a major will be advised by a professional adviser in the Academic Advising Center.

**STUDENT RESPONSIBILITIES IN THE FYE ACADEMIC ADVISING PROCESS:**
- become knowledgeable about academic policies, procedures, and requirements by reviewing the online Undergraduate Catalog (including University Core Curriculum and major department requirements)
- regularly check your campus email account and keep an open line of communication with your assigned adviser
- know your TU Student ID number
- know how to use your Academic Requirements Report to understand your progress toward satisfying graduation requirements
- meet with your adviser on a regular basis, at least twice every term; arrive on time; be prepared to talk about your academic plan; bring a list of questions and your New Student Guide
- understand campus resources and proactively seek assistance as needed
- take responsibility for your choices and overall academic experience

**ACADEMIC ADVISER RESPONSIBILITIES IN THE ACADEMIC ADVISING PROCESS:**
- provide accurate information about university policies, procedures, and academic requirements (including Core Curriculum, graduation, and major department programs)
- serve as a link between students and the campus community, including helping with transitional issues and understanding of campus resources
- assist students in identifying and assessing goals and objectives as part of developing an academic plan
- provide registration information and advice regarding course selection appropriate to the student’s academic plan
- assist students in understanding academic progress using the Academic Requirements Report

**ADVISING HOLDS YOU MIGHT SEE ON YOUR ACCOUNT**
All of the following holds will prevent course registration and require a meeting with an adviser to have the hold removed.

- FYE - First Year Experience Program
- DCP – Degree Completion Plan (at 45 credits – a Degree Completion Plan must be filed)
- IAP – Intentional Advising Program
- ARP - Academic Renewal Program
- AW - Academic Warning
- ADO - Advising & Orientation (for new freshmen or new transfers)
THINGS TO REMEMBER

My FYE adviser is: ____________________________________________________________

Email: ____________________________ Phone: ________________________________

The Academic Advising Center offers professional and peer advising to assist students with general questions about academic programs and policies. The Academic Advising Center does not provide major-specific advising; rather, we help students find resources and understand Towson's academic programs and policies.

THE FYE ADVISING PROCESS

1. Your FYE adviser is assigned to you based on your major and other academic interests, as indicated on your academic interest form. Students with declared majors are typically assigned an FYE adviser in their major department or academic college.

2. Students who are undecided about a major are typically assigned an adviser from the Academic Advising Center. Athletes and other special groups are assigned accordingly.

3. Your FYE adviser’s name is listed on your course schedule under the course ORIE 305 in the fall and ORIE 306 in the spring. Your adviser’s contact information will be posted to your online Student Center page as well.

4. Every first year student is required to meet with his/her assigned adviser prior to registering for the following term. FYE advising holds are removed by your FYE adviser during your advising session.

5. Registration for the spring term usually begins in November. Registration for the fall term usually begins in April. The academic advising process will vary with each adviser. Your adviser will notify you via TU email with details of advising meetings.

HOW YOUR FIRST TERM SCHEDULE WAS CREATED

Your initial schedule was created based on many factors, including the following:

- when your Academic Interest Form was received
- SAT/ACT scores
- math placement test score
- reading placement test if indicated
- AP/IB or transfer credit
- academic interests
- time constraints
- residential or commuter status
- availability of courses

OVERVIEW OF KEY DATES IN THE FYE ADVISING CALENDAR:

FALL TERM:
August: Mandatory group advising meeting during Welcome to TU
September: individual check-in meeting with your adviser
October: mandatory group advising meeting
November: mandatory individual advising meeting (the advising hold placed on your registration access for spring cannot be removed without this advising session).

SPRING TERM:
March: mandatory group advising meeting
April: mandatory individual advising meeting (the advising hold placed on your registration access for fall cannot be removed without this advising session).

In addition to the dates above, you can make an appointment to meet with your adviser at any time during the term. More detailed information about the FYE schedule for the year can be found on your ORIE 305 and ORIE 306 syllabi.

CAMPUS EMAIL POLICY

Your academic adviser will communicate with you through your TU email account. Please activate your TU email account and check it regularly during the term so that you don’t miss key information such as advising meetings, deadlines, or other time-sensitive information. For confidentiality purposes, when communicating via email please use your TU email address and include your student ID number.
TRANSFERRING STUDENT ADVISING PROGRAM CHECKLIST

Learning outcomes for new transferring students during their transition to Towson include:

TRANSFER CREDIT EVALUATION
✓ You will understand your Transfer Evaluation and how your transferred coursework fits TU’s requirements.
✓ You will understand the process for appealing transfer credit evaluation decisions.

ACADEMIC ADVISING
✓ You will know how to contact your academic adviser. If you do not have an academic adviser you will know how to contact your department office to be assigned to an academic adviser.
✓ You will know the general calendar for advising sessions in your major department.

TOWSON ONLINE SERVICES (PEOPLESOFT), UNDERGRADUATE CATALOG, BLACKBOARD, AND TOWSON EMAIL
✓ You will know how to access your Student Center and will become familiar with the information available and the resources linked there.
✓ You will know how to access your Academic Requirements Report and will understand the value and use of this tool in your own planning and in your meetings with your adviser.
✓ You will know how to access the Towson Undergraduate Catalog online.
✓ You will understand how to access Blackboard and will appreciate its role in course support.
✓ You will know how to access your TU email account and understand the important role that using and checking that account plays in university communications.
✓ You will learn how to register for classes and make prudent changes to your class schedules using your Towson Online Services account.

ACADEMIC MAJOR
✓ You will verify that your listed major is consistent with your intended major.
✓ You will learn how to change your major online as needed.
✓ You will know how to access information about your major on the Towson website.
✓ You will have and know how to use a program planning guide/sheet for your major.

My department adviser is

email ___________________________ phone ___________________________

If you do not have an adviser by the second week of classes contact your academic department. See directory on pp 39-40.
THINGS TO REMEMBER
The Academic Advising Center offers professional and peer advising to assist students with general questions about academic programs and policies. The Academic Advising Center does not provide major-specific advising; rather the staff helps students find resources and understand TU's academic programs and policies.

THE REGISTRATION PROCESS
1. At the Transfer Program you will meet with a faculty or academic adviser who will assist you in selecting your courses. If the major you want to pursue is different from the major you listed on your initial application, please change your major online as soon as possible—this will ensure you are assigned an appropriate adviser.
2. We encourage you to be flexible when choosing your classes. In addition to major requirements you can enroll in core and/or elective classes.
3. If you are not bringing in college credit for a math class, you are required to take the Towson University Mathematics Placement Test to determine the appropriate mathematics course.
4. After completing your first term, you will register for classes on your own based on an assigned enrollment appointment date.

THE ACADEMIC ADVISING PROCESS
1. Students with declared majors are assigned an adviser by the major department listed on the student’s record. Please declare or change your major online (as needed) so that you are assigned an appropriate adviser.
2. Students who are open/undecided about a major are assigned an adviser from the Academic Advising Center.
3. Your adviser's name and contact information are posted to your online Student Center page.
4. Every new Towson student is required to meet with his/her adviser prior to registering for the next semester. Academic Advising holds are removed at your advising session.
5. Academic advising for spring registration typically begins in October and advising for fall registration typically begins in March but varies with each department. If you have not been assigned an academic adviser prior to advising, please contact your major department.

CHANGE OF SCHEDULE PERIOD (“ADD/DROP”)
1. As a transferring student you will have the opportunity to make adjustments to your schedule on your own beginning the day after the entire Transfer Program ends. Please note that changes are at your own risk so remember to take major/degree requirements and any prerequisites into consideration. Once you drop a class, it is possible that you may not be able to get it back.
2. Some courses, particularly those in your major, may be restricted, requiring department consent or a special permit in order to enroll in the class. Before dropping other courses, contact the department restricting the course for information on how to get into the class. Please refer to The Registration Process—How to Make Changes to Your Class Schedule section of this booklet.
3. The official Change of Schedule period begins in the days following the start of the term. Consult the Academic Calendar for the exact dates. The Change of Schedule period is your final opportunity to make adjustments to your schedule before courses are permanently posted to your TU transcript.

CAMPUS EMAIL POLICY
Your academic adviser will communicate with you through your TU email account. Please activate your TU email account and check it regularly during the term so that you don't miss key information such as advising meetings, deadlines, or other time-sensitive information. For confidentiality purposes, when communicating via email please use your TU email address and include your student ID number.

DEGREE COMPLETION PLAN (BE A TIGER ON TRACK)
If you have 45 or more earned credits (including transfer credits), you must meet with your major adviser to complete a Degree Completion Plan. A degree completion plan, individualized to your needs, takes into account not only the courses needed to complete your degree, but the appropriate sequence and timing of the courses.

TO PREPARE YOUR INDIVIDUALIZED DEGREE COMPLETION PLAN:
• check out TU’s online undergraduate catalog for the suggested plan of study for your major;
• review your Academic Requirements Report to see which graduation requirements you have met and which you need to complete; and
• access the website of your college or major department to find information about how to file a Degree Completion Plan with your adviser or academic department.

Your plan is a road map, but it can change if your direction (degree program) changes. With your Degree Completion Plan in place, you will be able to monitor your progress and be a Tiger on Track!

TU IN NORTHEASTERN MARYLAND (TUNE)
410-704-TUNE (8863) • TOWSON.EDU/TUNE

Towson University’s facility in Harford County, across the street from Harford Community College in Bel Air, MD., includes state-of-the-art classrooms, labs, offices, and event spaces. The location makes Towson University’s programs easy to access for students who live in the northeastern Maryland region and provides opportunities for study, career exploration, internships, and networking for future employment. Partnerships with Maryland community colleges permit a seamless transfer for students with their associate degree to pursue a bachelor’s degree at TUNE. Students enrolled at the main Towson campus may also take courses offered at the TU Northeastern Maryland facility space permitting.

Undergraduate upper-division programs and courses are currently offered in the following majors:

- Business Administration (Leadership and Management concentration)
- Communication Studies
- Family and Human Services (Services to Children and Youth track)
- Information Technology
- Integrated Early Childhood Education/Special Education
- Integrated Elementary Education/Special Education
- Nursing (Associates to Bachelors & R.N. to B.S.)
- Psychology
- Sociology (Criminal Justice concentration)

Additional program offerings are being planned for the future. TUNE students also have access to courses, resources, and events on the main campus that are available to all TU students.
Visit: catalog.towson.edu/undergraduate

The Undergraduate Catalog is divided into several sections including: University Curriculum, Academic Policies, Academic Colleges and Departments, and Course Descriptions.

University Curriculum will list what you need to do to graduate from Towson University. Also included in this section is a list of the University Core Requirements and a checklist for you to track your progress. For your convenience, we have duplicated them in this guide.

Academic Policies will explain academic situations that may arise (satisfactory academic progress, good academic standing, etc.).

The Academic Colleges and Departments section is divided alphabetically by department. Each department has a section that explains the major and its tracks and concentrations. If the department offers a minor, it is explained there also. A specific list of courses needed to fulfill each major/minor or concentration or track is detailed in the department section, so it is a good idea to bookmark the page that begins the section for your major department.

UNDERGRADUATE COLLEGES WITHIN TOWSON UNIVERSITY

The College of Business and Economics
The College of Education
The College of Fine Arts and Communication
The College of Health Professions
The College of Liberal Arts
The Jess and Mildred Fisher College of Science and Mathematics
The Honors College (Currently not available at off-site locations.)

COURSE DESCRIPTIONS

These course listings are in alphabetical order by department. Each course listing includes a description of the course content and a list of prerequisite courses (courses you must have completed successfully in order to enroll).

As you look through the courses needed for your major or minor — or even some University Core courses — check out the course descriptions to be sure that you are eligible to take the course. Some courses are reserved for students in a particular major or minor, and they will be designated “Department Consent.” If you believe you are eligible to take a restricted course, you should contact the department directly.

### GRADUATION ELIGIBILITY

Students who have successfully completed all requirements for an undergraduate degree are eligible for graduation.

- Earn at least 120 units
- Complete all University Core Curriculum categories
- Complete a minimum of 32 units of upper-level (300–400) courses
- Complete all requirements for a declared major
- Earn a minimum cumulative Grade Point Average (GPA) of 2.00

Academic departments may establish additional degree requirements depending on the major. Final determination of graduation eligibility is granted by the Graduation Office once a student submits a graduation application.

### PLANNING FOR GRADUATION

Plan early for graduation. Discuss graduation plans with your adviser a year in advance. Refer to your catalog to ensure you are on track to complete all requirements by your intended graduation term.

Visit the Office of the Registrar’s Web page for details:
www.towson.edu/registrar/graduation
To fulfill Towson University’s Core Curriculum requirements, students must complete one course from each of the following 14 categories. For a complete list of Core Curriculum courses, visit www.towson.edu/core.

**FUNDAMENTALS**

1. **Towson Seminar:** Focusing on exploration and discovery, this course introduces students to the academic expectations for college-level work and to the intellectual, communication, and collaborative skills needed for academic success. Seminar format emphasizing active learning, with variable content in different Towson Seminar courses. Introduces multiple perspectives and may draw from more than one discipline. Towson Seminar must be taken in one of your first two terms. Must earn a 2.0 grade or higher. If course needs to be repeated, you may choose any TSEM topic.

2. **English Composition:** This course focuses on exploring ways of writing and thinking in the branches of knowledge and on developing rhetorical strategies for successful college-level expository writing. Must earn a 2.0 grade or higher.

3. **Mathematics:** Requires skills at the level of college algebra or above. Treat concepts and skills in the mathematical sciences and emphasize both theoretical foundations and problem-solving applications such as finite mathematics, statistics, discrete mathematics, and mathematical survey courses.

4. **Creativity and Creative Development:** Specific creative activity emphasizing symbolic, affective and imaginative thinking in the creative activity and understanding the creative process through participating in it. Reflect current scholarship in the field, provide reference to theoretical frameworks and methods, and explore the critical standards central to the genre or medium.

**WAYS OF KNOWING**

5. **Arts and Humanities:** The arts examine aesthetics and the development of the aesthetic form. Courses in this area may include, but are not limited to fine, performing and studio art, appreciation of the arts, and history of the arts. All courses, including fine, performing and studio arts, will explore the relationship between theory and practice. The humanities examine the values and cultural heritage that establish the framework for inquiry into the meaning of life. Courses in the humanities may include but are not limited to, the language, history, literature and philosophy of Western and other cultures. *(The course meeting this requirement must be taken in a discipline different from the course meeting requirement 4.)*

6. **Social and Behavioral Sciences:** The social and behavioral sciences examine the psychology of individuals and the ways in which individuals, groups, or segments of society behave, function, and influence one another. They include, but are not limited to, subjects that focus on history and cultural diversity; on the concepts of groups, work, and political systems; on the applications of qualitative and quantitative data to social issues; and on the interdependence of individuals, society, and the physical environment.

7. **Biological and Physical Sciences (Lab only):** The biological and physical sciences systematically investigate living systems and the physical universe and introduce students to methods used to collect, quantify and interpret scientific data and to synthesize and apply scientific concepts. Courses in this category present the historical development and structural nature of the subject, illustrate the predictive nature of these sciences, and employ mathematics and computing techniques as appropriate. Students must take two courses in the biological and physical sciences categories with at least one four-unit course that includes a laboratory. The laboratory experience will emphasize hands-on investigations and scientific inquiry. Students must select either two courses from different scientific disciplines or two sequenced courses within one discipline.

8. **Biological and Physical Sciences (Lab and Non-Lab):**

   See description above.
WRITING IN A CHOSEN FIELD

9. **Advanced Writing Seminar:** Courses in this category will address (1) the discourse models and practices important to a specific discipline and (2) techniques of formatting and reporting, validation and documentation required to write with authority and authenticity within the discipline. A grade of C or higher must be earned to satisfy Core Requirement.

PERSPECTIVES

10. **Metropolitan Perspectives:** Courses in metropolitan perspectives examine and explore the metropolis (as broadly conceived) in its past and present complexities. The category includes courses that describe characteristics of specific places, like the Baltimore-Washington metropolitan areas, or that describe characteristics or dynamics of metropolises in general, whether in the United States or in other countries, whether contemporary or historic, through the lens of an appropriate discipline.

11. **The United States as a Nation:** Courses addressing the United States as a nation explore the institutions, history, culture, or traditions of the United States with an emphasis on addressing through a particular subject matter the broader experience of the nation as a whole.

12. **Global Perspectives:** Courses in global perspectives examine how the global environment is changing, and is being changed, by major social, cultural, religious, economic, political and technological forces, and how new patterns of relationships are shaping and being shaped by the global environment.

13. **Diversity and Difference:** Courses in diversity and difference will explore relationships of distinctiveness and interdependence, conflict and cooperation between and among people with varying cultures, beliefs, identities and capabilities. Courses will cultivate in students the ability to examine and articulate differences of conviction and perception through open exchange and civil discourse. As part of that process, students will also come to understand more fully the lenses through which they view the world.

14. **Ethical Issues and Perspectives:** Courses in ethical issues and perspectives will develop one or more ethical issues of current importance to any of a broad range of academic disciplines. These courses are designed to help students understand different perspectives on ethical problems and different processes and techniques helpful in reaching sound judgments.
Please note: Only four courses in the same subject area may be used to fulfill both Core and Major requirements.

For a complete updated list of Core Curriculum courses, visit www.towson.edu/core.

**CORE (1) TOWSON SEMINAR (3 UNITS)**
Grade of C or higher is required for successful completion.
TSEM 102 Towson Seminar: Varied Topics

**CORE (2) ENGLISH COMPOSITION (3 UNITS)**
Grade of C or higher is required for successful completion.
ENGL 102 Writing for a Liberal Education
ENGL 190 Honors Writing Seminar

**CORE (3) MATHEMATICS (3-4 UNITS)**
ECON 205 Statistics for Business and Economics
MATH 103 Transition to Mathematical Ideas
MATH 105 Mathematical Ideas
MATH 106 Intro to Contemporary Mathematics

ACADEMIC REQUIREMENTS REPORT (ARR)

The ARR is a feature in the Student Center that allows students to track their academic progress, including core curriculum, major, minor, and other graduation requirements. It is an essential tool, in conjunction with a student’s degree plan, to ensure satisfactory academic progress.

The top of the ARR displays the progress of the Core course requirements, as shown above.

The report view is defaulted to show satisfied requirements as closed, and those that are unsatisfied as open.

Once you have declared a major, the ARR will also indicate which major requirements you have completed and which you still need to complete. Using the ARR will ensure that you are aware of the Core, major and graduation requirements you have completed or have yet to complete.

SAMPLE DEGREE PLAN

Each student is required to create a graduation plan with their academic advisor, which provides them with a roadmap to complete their degree requirements. For first-year students, this will be completed in the first semester of second year. For transfer students, it will be completed their first semester on campus.

The table below reflects a sample four-year course sequence.

GENERAL GRADUATION REQUIREMENTS

All students must complete the following to complete their degree at TU:

- All Core curriculum requirements
- All major requirements
- 32 upper-level credits (300 or 400 level classes)
- 120 credits in total

Additionally, students must graduate with a 2.0 cumulative GPA or higher.
The Career Center is here to help you achieve your career goals. We offer a comprehensive range of free services to assist you with all of your career-related needs including: developing your career action plan, career counseling and advising, resume and cover letter reviews, mock interviews, job and internship searches, and graduate school essay reviews.

CAREER ROADMAP

CAREER ROADMAP YEAR 1
CAREER ROADMAP TRANSFER

**Transition / Connect**
- Get involved with on-campus clubs and/or sports.
- Set up a My First Appointment at the Career Center.
- Join the Transfer Mentor Program.
- Meet with your academic advisor.
- Visit the new Transfer Student Center.

**Transition / Connect**
- Activate your Handshake account.
- Get your resume reviewed by a Career Peer Advisor.
- Assess your skills that you have gained from past experiences.
- Review road maps from previous years to catch up on anything you might have missed.

**Hours:**
- Monday – Friday, 8 a.m. – 5 p.m.
- Express Hours: Fall and Spring Term: Monday – Friday, 11 a.m. – 5 p.m.
- Call to schedule an appointment
  (No appointment needed for 15-minute consultation)

**THE CAREER CENTER**
410-704-2233
careercenter@towson.edu
7800 York Road Building, Suite 206
REGISTERING FOR YOUR SECOND TERM

Beginning with your second term, you will enroll in classes on your own on an assigned enrollment appointment date. You will only be able to enroll after discussing your class selection with your advisor.

The enrollment date will be in your Student Center. Enrollment dates are determined on the amount of credit each student has earned, with priority given to students with more credit.

The Change of Schedule period will be the last opportunity to add, drop, or swap classes. View the academic calendar for this date.

Registration is completed online through Towson Online Services. If you have problems, contact the Registrar’s Office at (410) 704-2701. An online tutorial is also available at www.towson.edu/registrar/registration

TO SEARCH FOR A COURSE:

- Log onto Towson Online Services
- Click the “Self Service” link
- Click the “Student Center” link
- Click the “Search for Classes” link
- In the Term field, type 1204 (Fall 2020) 1212 (Spring 2021)
- Enter the “Course Subject” (e.g., “ENGL”)
- Enter the “Course Number” (e.g., “102”)
- Click “Additional Search Criteria” if you want to search for classes held on a particular day, at a certain time, or by a certain instructor
- To search by core, in the “Class Search” section, click on the drop down menu for “Core/General Education,” then select “University Core Requirements,” then select the desired core from the menu
- If the “Show Open Classes Only” option has a check mark beside it, your search results will only show course sections available; it will not show waitlisted courses.
- To view waitlisted courses, uncheck this box
- Click the “Search” button to populate courses
While class time and study time may be the most obvious, there are many factors to consider when planning your schedule, including time for:

- study (recommended 2–3 hours for each hour of instruction)
- travel to class and between classes. Make sure you leave enough time to travel to and from each class location (e.g., Towson City Center, York Road Building, Enrollment Services, Center for the Arts, Towson Center, etc.) Note that some classes are scheduled on off-site campuses, including the Towson University Northeastern Campus in Harford County.
- athletics or music training/practice, off-campus observation, internships, etc.
- meals
- work
- social activities
- family obligations
- sleep

In addition to students who are enrolled full time at Towson University in Northeastern Maryland, main campus students may also register for courses offered at the TU facility located in Bel Air, Maryland. TUNE students may also register for courses at the main campus.

Please see page 9 to learn more about the different program offerings at TUNE. You may also learn more by contacting them at 410-704-TUNE (8863), by emailing at TUNEMD@towson.edu, or visiting their webpage at: www.towson.edu/tunemd.
1. Open your internet browser and type https://mytu.towson.edu/app/ui/studentapps
2. Select “Towson Online Services Student Center”

3. Login with your NetID and password

4. Click on “Enroll/Drop” under “Academics”
5. Select the registration term and then click “Continue”
6. Enter the class number and skip to step 12B, or click on “Search” to search for classes
7. Click on “Select Subject” or enter a class’ subject code to choose a subject area (Ex. ENGL)

8. Students can also search for classes in the Core curriculum by choosing “Core/Gen-Ed”

9. Students can narrow their search even further using the “Additional Search Criteria”

10. When finished selecting search criteria, click on the Search button
11. Class options will appear on the screen in one of two ways:
   a. If the course number was defined in the search, class will appear in a detailed list
   b. If the course number was not defined, classes will appear in a list, and details can be viewed by clicking the arrow next to the class section
12. Select the desired course section; Open classes will be noted by a green dot under “Status”
   a. Click “Select” to select the class
   b. Check to confirm class selection and hit “Next”
   c. Class will now appear in the shopping cart

13. To search and select additional classes, repeat steps 7-12
14. When finished adding classes, view selected classes in the shopping cart
15. To finalize enrollment:
   a. Select the boxes next to classes to be added to the schedule
   b. Click “Enroll,” confirm classes and click “Finish Enrolling”
   c. Enrollment success will be verified by a green checkmark
### HOW TO MAKE CHANGES TO YOUR CLASS SCHEDULE

</table>
1. Schedule Builder is an optional tool that helps students explore multiple possible class schedules at once. First log into your Student Service Center. The Schedule Builder is available under Academics. Click on the link shown below.

![Academics](image)

2. This will take you to the Schedule Builder front page. Make sure the correct term is selected. From here, you can use the filters shown to narrow your selections.

![Schedule Builder](image)

A. If you have any restrictions to your schedule use the Availability filter.
B. Session allows you to choose between regular semester long and seven week classes.
C. Class Status allows you to search for closed, open, and/or wait listed classes.
D. Career allows you to differentiate undergraduate and graduate classes.
E. Instruction Mode allows you to select from in-person, online, and hybrid classes.
F. Section Filters allows you to select between General Education and University Core Requirements. Students who use undergraduate catalogues from 2011 onward follow University Core Requirements.
G. Course Selection allows you to add classes based on Subject and Catalog Number.
3. As you continue to add classes, they will appear below the schedule builder filters.

4. Once you are satisfied with the number of classes you have selected, you will click the Build Schedule button at the bottom right corner. Here you can also delete selected classes, or save your search to review later.

5. Once you click Build Schedule, the options listed are based off your availability and course criteria. Users can view various options using PREV and NEXT. Once you've found a schedule, click the Enroll button at the top left of the screen.

6. Click on the classes you intend to enroll in, and click on the Enroll button to finalize your registration.
1. **DO ALL CLASSES HAVE A WAITLIST?**
   If a waitlist is available, an orange triangle icon will appear next to the section in the Class Schedule. Not all classes or departments offer waitlists, so if a class is full and no waitlist is available, re-visit Towson Online Services regularly for possible openings or contact the academic department.

2. **WHAT IS THE ADVANTAGE OF ENROLLING IN A WAITLIST?**
   The waitlist enables students to be automatically enrolled in closed classes as seats become available.

3. **IS THERE A LIMIT TO THE NUMBER OF CLASSES THAT CAN BE WAITLISTED?**
   The limit is set by using units rather than classes. Students have a limit of 10 waitlist units during fall, spring and summer terms. For Mini, you may waitlist up to 3 units. Please note: Regardless of how many units you are waitlisted for, you will not be enrolled beyond the maximum number of units permitted for the term.

4. **ARE THE WAITLISTED UNITS COUNTED INTO THE STUDENT’S TOTAL UNITS FOR THE TERM?**
   Waitlisted courses are not counted toward full-time status or calculated in bills.

5. **CAN I WAITLIST IN MORE THAN ONE SECTION OF THE SAME CLASS?**
   Yes, you can waitlist for multiple sections of the same class. However, once you are enrolled in one section, the other waitlisted section will be automatically dropped.

6. **I WAITLISTED A COURSE AND THEN ENROLLED IN AN OPEN SECTION OF THE SAME COURSE. WHAT HAPPENED TO MY WAITLISTED SECTION?**
   Once you enroll in an open section, any waitlisted sections for the same course will automatically drop.

7. **CAN I REMAIN ENROLLED IN MY CURRENT SECTION BUT WAITLIST A DIFFERENT SECTION?**
   If you wish to remain enrolled in your current section until space becomes available in the closed section, enroll in the waitlisted section using the SWAP feature (see No. 9).

8. **CAN I WAITLIST FOR A CLASS THAT CONFLICTS IN MEETING TIMES WITH A CLASS THAT I’M ALREADY ENROLLED IN?**
   Yes, you can waitlist for time conflicted classes, but you will not be moved off of the waitlist until the time conflict has been resolved. If you wish to remain enrolled in your current course until space becomes available in the closed course, enroll using the SWAP feature (see No. 9).
9. **WHEN SHOULD I USE THE SWAP FEATURE TO EnROLL IN A WAITLISTED CLASS?**

If you are currently enrolled in another section of the same course or are in a course that has a time conflict with the waitlisted course, use the SWAP feature to enroll in the waitlisted course. SWAP the enrolled or conflicting course with the closed section, choosing the waitlist option. Once space is available in the waitlisted section, the system will automatically swap the enrolled course with the waitlisted course.

10. **WILL HAVING A HOLD ON MY ACCOUNT AFFECT MY ABILITY TO USE THE WAITLIST FUNCTION?**

Yes. Any type of hold that affects registration will prohibit a student’s ability to use the Waitlist function.

11. **HOW OFTEN DOES THE SYSTEM CHECK FOR OPEN SEATS IN WAITLISTED CLASSES?**

When a student drops a closed class with a waitlist, the class will remain closed until the students on the waitlist have been enrolled or skipped (if class requirements are not met). Auto-enrollments are processed several times a day during registration periods. Once the waitlist has processed all students on the waitlist, the class will move to open status if there are any remaining open seats.

12. **I WAS IN POSITION NO. 1 ON A WAITLIST. WHY WASN’T I ENROLLED WHEN A SEAT OPENED?**

The requirements to be moved off of a waitlist are the same as standard enrollment:

- You will not be enrolled in more units than permitted in that term.
- You will not be enrolled if you have not met the prerequisites for that class.
- You will not be enrolled if you have any registration holds, i.e., Advising Hold, Bursars Hold, etc.
- You will not be enrolled in a class if it conflicts in meeting times with another class in which you are enrolled or if you are enrolled in a different section of the same class. (See No. 9: When should I use the SWAP function to enroll in a waitlisted class?)

13. **CAN I TAKE MYSELF OFF OF A WAITLIST?**

Yes, you may remove yourself from a waitlist by following the same process as for a standard drop.

14. **WHAT IS THE FIRST DAY I CAN GET ON A WAITLIST?**

Waitlists are only available once the class has reached its enrollment capacity. For high-demand classes, this may be the first day of registration.

15. **WHAT IS THE LAST DAY I CAN GET ON A WAITLIST?**

For the fall and spring terms the last day to select the waitlist option is the Friday before the term begins. Students will continue to be enrolled over the weekend should a seat become available. The waitlist process ends on Monday.

16. **HOW WILL I KNOW WHEN I AM ENROLLED IN THE WAITLISTED CLASS?**

Students are notified by an email sent to their TU account.
ACADEMIC STANDARDS AND PROCEDURES

TRANSFERRING WORK TO TOWSON
With prior permission, Towson students may take courses for transfer to TU until they have attained 90 units. However, no more than 64 units may be transferred from an accredited two-year institution. Permission is obtained by submitting a Petition to Transfer Credits to Enrollment Services prior to registering for the course. Students are expected to complete the final 30 units toward their degree at TU.

To read the entire section of Academic Standards and Procedures, please refer to the online 2020-2021 Undergraduate Catalog.

GOOD STANDING AND SATISFACTORY ACADEMIC PROGRESS
All students are encouraged to maintain at least a 2.00 overall grade point average to remain in good academic standing. Please refer to the registrar’s website for accurate information regarding Academic Good Standing and consequences of Failure to Remain in Good Standing.

I (INCOMPLETE) GRADES
The grade I is given to students by their instructors when verifiable circumstances prevent students from completing a course within the term. The I grade should be given only in cases where students have completed most of the course work and have a reasonable expectation of passing. The grade of I automatically becomes a grade of F 180 days from the end of the term following the granting of an I unless changed to another letter grade by the instructor.

PASS D OR F GRADING OPTION
Students may elect to be graded on a Pass basis for a maximum of 13 units toward their degree. This option is not available for courses required for a major, minor, Honors College, or for certification in teacher education unless special permission is obtained from the department chairperson. Students must make all changes before the published withdrawal deadline and change in grading option each term. Students must complete a Change of Schedule Form in the Registrar’s Customer Service Center, located in the Enrollment Services Building, Room 223. Students electing this option must earn a grade equivalent of 2.00 (C) or higher in order to receive the Pass (PS) grade, which is not calculated into the GPA. Students who earn below the grade equivalent of 2.00 will earn that grade, which will be calculated in the GPA.

REPEATING COURSES
When courses are repeated, students will receive credit for the course only once. Only the higher of the two grades will be calculated into the GPA. The lower grade will remain on the record with a repeat excluded message. Before registering for the course students must complete a Petition for a Third Attempt Form which can be found online at towson.edu/registrar/grades. Grades of W are administrative and are not considered as part of the repeated course procedure. Courses that have been accepted previously for transfer credit by TU or have been attempted or completed for units at TU may not be repeated at other institutions.

A GPA Calculator is available on the registrar’s website: www.towson.edu/registrar/grades/calculator.html

Multiply the number of units x the value points for total points (total value pts.) \(38.67 = 2.974\) GPA

Divide the total value points by the total number of units.

Note: A+, C-, and D- grades do not exist at Towson.
STOP BEFORE YOU DROP... OR WITHDRAW

DROPPING A CLASS
The Change of Schedule period begins in the days following the start of the term. See the Academic Calendar for details. During that period, students may add or drop courses through their Towson Online Services account. Courses dropped during this period do not appear on a student's transcript.

The number of credits in which a student is enrolled at the end of Change of Schedule Period serves as the basis for determining billing, financial aid, and enrollment status.

WITHDRAWING FROM A CLASS
The Withdrawal deadline varies by term. Please see the Academic Calendar for exact dates. Students may withdraw through their Towson Online Services account. Students who withdraw receive a grade of W, which does not affect the student's Grade Point Average (GPA). However, students who are considering withdrawing from one or more courses should determine whether their enrollment status will change from full time (12 credits or more) to part time (fewer than 12 credits) and should consider the following potential consequences of course withdrawal(s):

- Impact on financial aid or scholarships for the current term or future enrollment periods (consult your financial aid adviser)
- Eligibility for on-campus housing (consult the Housing and Residence Life Office or Capstone On Campus Management)
- Eligibility for continued participation in athletics (consult your athletics adviser)
- Eligibility for continuation in the Honors College (consult your honors advisor)
- Eligibility for VA benefits (consult Veterans Benefits Office)
- Impact on visa status for international students (consult your ISSO adviser)
- Impact on health insurance and medical coverage and
- Impact on automobile insurance

For further information about the withdrawal policy, check the Registrar's office website: towson.edu/registrar/registration/. Before making a final decision about withdrawal, students are strongly encouraged to consult with their assigned academic adviser or with a member of the Academic Advising Center professional staff.

STOP AND GET ALL THE FACTS BEFORE YOU WITHDRAW

ACADEMIC STANDARDS AND PROCEDURES (CONTINUED)
WHAT YOU CAN DO IF YOU EXPERIENCE ACADEMIC DIFFICULTY

1. **Go to class.** Pay attention. Do not use your phone or the internet while in class. Ask questions if you don’t understand something the professor is saying. Take thorough notes.

2. **Seek out the professor.** Take advantage of your professor’s office hours. Every professor has published office hours on the syllabus or posted on the office door. Do not be afraid to build a relationship with your professor. They are there to support you. Do not wait until the last minute. Be prepared when you go to ask the questions you need to understand the topic, to get suggestions on how to improve your grade in class, or to make sure you understand the assignments. Having connections with your professors can also help you down the road when applying for internships, jobs, graduate school, or general networking.

3. **Seek out your academic adviser.** Freshmen are assigned to an FYE adviser with whom they can meet to discuss their difficulties. Non-freshmen are assigned an adviser in their major department. Open major upper-class students will be advised in the Academic Advising Center, Lecture Hall. Your adviser can make suggestions on how you approach your class work, or can suggest other helpful tips in becoming a better student.

4. **Attend workshops** provided by the Tutoring and Learning Center. The TLC conducts many different workshops during each term on topics designed to assist students in studying more effectively, improving concentration, and being better prepared to take exams. These are free and open to all students. The TLC is located on the fifth floor of Cook Library. The TLC website offers more useful information at www.towson.edu/tlc. Select TLC workshops will be offered at the Towson University in Northeastern Maryland (TUNE) facility each term.

5. **Sign up for assistance from a student tutor.** Tutors work out of the Tutoring and Learning Center and this service is free to students. Tutors are available in most disciplines. Contact the Tutoring and Learning Center at 410-704-2291 to request a tutor. Students attending courses at the TUNE facility should contact the Academic Support Coordinator at asctune@towson.edu or contact their academic advisor for additional academic support.

6. **Use the services** provided by the Spence Math Lab, Writing Center, Computer Science Tutorial Lab, and Natural Sciences Tutorial Lab. These are available to students at no charge and are designed as a walk-in service, so no appointment is necessary. **Math Lab** in 7800 York Road Bldg room 105, 410-704-2291; **The Writing Center** in Liberal Arts room 5330, 410-704-3426; **Computer Science Tutorial Lab** in 7800 York Road Bldg room 407, 410-704-2424; **Natural Sciences Tutorial Lab** in Smith Hall room 538, 410-704-3054.

7. **Form a study group** with three or four students in the same class. Study groups can improve a student’s understanding of the material by sharing information and filling in knowledge gaps. In reviewing information with other students, you become more familiar with the material, you hear the information presented in a different way, and you can ask questions to be able to comprehend more fully the study materials.

8. **Increase your study time.** Collective wisdom indicates that for every hour spent in class, a student ought to be spending three hours outside class preparing for assignments, reading materials and texts, writing papers, and studying for exams. If you are taking a 3-credit class, you ought to be spending nine hours a week getting prepared. It might help if you put study time in your calendar/planner.
POTENTIAL ACADEMIC CHALLENGES FOR TRANSFERRING STUDENTS

In their first semester, transferring students are not only transitioning from their previous institution to Towson, but many are also transitioning from lower level/division courses (100 – 299) to upper level/division courses (300 – 499). In general, most upper level courses require a different type of focus, an increase in the amount of study time required for success, and more preparation than is required in most lower-level courses. Only courses taken at Towson are calculated in the Towson GPA.

While the material may be comprehensible, some aspects may require a change in the student’s study approach:

1. Fewer grades factor into the final grade: Rather than frequent homework assignments and quizzes, a student's grade often depends on one or two tests and a final exam, or one test, a paper, and a final exam. This means that students must attend class regularly and keep up with the readings and other assignments.
2. Some upper level courses require a significant amount of writing and most teachers expect that students in an upper-level class have good fundamental college writing skills.
3. Generally, especially in upper-level courses, there are no extra credit or second chances.

Students, early on, should assess their need for services. Towson offers free tutoring, academic coaching, writing support, counseling, health services, etc., but the students will need to recognize their need and take advantage. While many faculty and staff are eager to help students, it is the student’s responsibility to ask for help and seek assistance.

Students who are taking upper-level courses should expect to do more work/study/preparation than they did in lower-level courses, whether at Towson or elsewhere. For new transferring students, it is important to think carefully about other aspects of their lives such as commuting to campus and working during the semester.

RESOURCE ON LOWER LEVEL VS. UPPER LEVEL COURSES

Lower-division courses (100 – 299) generally have one or more of the following characteristics:

- Breadth: students gain some understanding of the extent of a field or discipline; OR students learn how one field fits into or relates to other fields.
- Foundation: students become acquainted with principles, terms, methods, and perspectives of a discipline or professional field, as a basis for more advanced or specialized study. Lower-division courses are those that majors are expected to complete in their first two years of study in the subject.
- General education: students develop essential skills, attitudes, and practices (e.g., basics of critical thinking, numeracy, communication, problem solving) important in many different fields of higher education (e.g., lower-division Core) and perhaps in everyday life.
- Preparation: lower-division courses may assume some basic entry-level knowledge, such as high school preparation in the field.

Upper-division courses (300-400) generally have one or more of the following characteristics:

- Depth/Focus: students make in-depth study of a discipline’s theories and methods, developing an understanding of the applications and limitations of those theories.
- Specialization: students develop specific intellectual and professional abilities that will enable them to succeed or progress in a particular field or professional practice.
- Refinement: students build upon the “general education” background noted above, applying these skills more discerningly or in more challenging contexts.
- Preparation: prerequisites may include more general courses, student class standing, GPA requirements, or admission to a pre-professional program. Thus, majors and minors generally take upper-division courses in their junior and senior years.

University of Nevada Reno, Office of the Provost
In order to make your student experience as successful as possible, Towson University offers a number of support services on the main campus. A full list of Academic Services & Resources is located online at www.towson.edu/academics/resources/. Students enrolled at TUNE may contact the director of Student Services for additional information and resources.

THE ACADEMIC ADVISING CENTER
The Lecture Hall · 410-704-2472
Hours: M–Th 8 a.m.–5 p.m.; F 8 a.m.–4:30 p.m.
SAA Hours: M–F 9 a.m.–4:30 p.m.
advising@towson.edu · www.towson.edu/advising

The professional academic advisers in the Advising Center work with first-year students and students without a declared major to review their progress toward the fulfillment of degree requirements. They advise students on developing academic goals, planning programs, selecting courses, investigating majors and meeting academic standards. In addition, the staff conducts specific programs for students who have received academic warnings or who are on academic probation to assist them in regaining good academic standing. The student academic advisers are specially trained and supervised peer advisers who assist students with questions about their degree progress and academic requirements on a walk-in basis. The SAA staff also does outreach programming with student groups and organizations.

ACADEMIC SUPPORT SERVICES AT TU NORTHEAST
TUNE 202 · 410-704-3057
asctune@towson.edu

TU in Northeastern Maryland (TUNE) students have access to a full-time Academic Support Coordinator for library, writing, and other academic assistance. TUNE students may contact the coordinator to schedule an appointment regarding library services, research consultations, writing support, academic coaching, and workshops.

ACCESSIBILITY & DISABILITY SERVICES
Administration Building 232 · 410-704-2638
towson.edu/accessibility-disability-services/ · Hours: M–F, 8 a.m. – 5 p.m.

The Office of Accessibility & Disability Services (ADS) works to ensure equal opportunities and an accessible educational experience for students with disabilities. We provide accommodations and services for students with various disabilities, including ADD/ADHD, autism spectrum disorder, brain injuries, learning disabilities, medical disabilities, mental health disabilities, mobility/physical disabilities, hearing and vision disabilities, speech-language disabilities, and more. Accommodations are determined on a case-by-case basis and may include priority registration, testing accommodations, note-taking assistance, interpreting services, alternate formats for printed materials, assistive technology, para-transit use and internship accommodations. For more information visit our website.

THE CAREER CENTER
7800 York Road, Suite 206 · 410-704-2233
careercenter@towson.edu · www.towson.edu/careercenter
Hours: M–F, 8 a.m.–5 p.m.

The Career Center seeks to provide resources and services that empower students and alumni to learn lifelong career-development skills. There are two types of one-on-one meetings offered at The Career Center: career advising and career counseling appointments. Career advisers assist with specific needs such as writing resumes or cover letters, finding internships, developing job-search strategies, and practicing interview skills. In addition to these services, a career counselor can also help with establishing career goals, interpreting career-related assessments, making career decisions, coping with career transitions, and overcoming obstacles to career development.

THE COUNSELING CENTER
Ward West Building · 410-704-2512
counseling@towson.edu · www.towson.edu/counseling
Hours: M–F, 8 a.m.–5 p.m., T–Th, 8 a.m. – 6 p.m., W, 8 a.m. – 7 p.m.

The Counseling Center staff helps students make the most of their college experiences. They work with students to resolve emotional difficulties, improve personal skills, overcome the effects of trauma, disadvantage or substance abuse, and achieve personal goals. The Counseling Center also seeks to improve the quality of life on campus as a whole. Recognizing that the university community includes people with a wide range of concerns and needs, it provides programs and presentations by request and offers a full calendar of events during the academic year.

FOREIGN LANGUAGE PLACEMENT POLICY
For placement in Spanish language, new students must take an online placement test. Students wishing to enroll in French, German, Italian, or Russian courses who do not already have college credit for the language, are encouraged to take the online placement test. Information about the placement tests can be found on the Advising and Student Resources link on the Foreign Language department website: towson.edu/cla/departments/foreignlanguages/

general recommendations for the study of other foreign languages:

- One year of high school language study, students may register for 102 or 201.
- Four years of high school language study, students may register for 201 or 202.
- Five years of high school language study, students may register for 202 or 301.

COLLEGE CREDIT FOR PRIOR LEARNING EXAM
Administered by the Department of Foreign Languages, this exam is administered exclusively in November each academic year and only in the following languages: Chinese, French, German, Hebrew, Italian, Japanese, and Spanish. For more information, including exam applications and instructions, visit www.towson.edu/forl or call the Department of Foreign Languages at 410-704-2883.
MATHEMATICS PLACEMENT TEST
The Department of Mathematics has developed its own placement test. The purpose of this test is to measure the required mathematical skills needed for success in various levels of mathematics courses at Towson University. Some students choose majors that require one or more particular mathematics courses; others only take mathematics courses to satisfy the university requirement. In either case, the placement test results identify an appropriate course (or courses) for you. You will not be able to register for a math course unless you have passed the prerequisite course or your mathematics placement test score is sufficient. For more information visit the Mathematics Department website: www.towson.edu/math

THE MILITARY AND VETERANS CENTER
Psychology Building, Room 107 // (410) 704 – 2992
towson.edu/veterans/
Hours: M-F 8 a.m. – 6 p.m.
The Military & Veterans Center’s mission is to provide outstanding support and services to all student veterans and qualified dependents. To do this, the MVC promotes a safe and like-minded community, personal growth and career development opportunities, and comprehensive in-school support (especially for educational benefits claims). Stop on through today to learn more!

STUDENT COMPUTING SERVICES
Albert S. Cook Library 35 // 410-704-5151
scs@towson.edu // www.towson.edu/scs
Facebook: TUSCS/Twitter: TowsonSCS
Student Computing Services (SCS) provides technology support and services for students, available through the Service Desk at each SCS location. The Service Desk supports access and use of all the major student systems at Towson University including Office 365 (free Microsoft Office suite for students), WordPress (personal web pages), Towson Online Services (schedules, course registration, bill payment) and Webmail. At each location, SCS performs troubleshooting and diagnostic assistance for student-owned laptops, including virus removal and wireless network configurations.

COOK LIBRARY 35
Service Desk, computer lab, multimedia loans and support, studios and wepa printing.

TOWSON RUN 123 IN WEST VILLAGE
Service Desk, computer lab and wepa printing.

TUNE 206
Service Desk, computer lab, multimedia loans and support, and wepa printing for TU students in Harford County.
TechOverture (towson.edu/TechOverture) lists important technology-related services for students at TU including how to access and use your Net ID, tech support, resident hall TV and internet, email, Blackboard, Wi-Fi, OneCard, printing and more. Bookmark this useful directory for reference throughout your academic career.
Visit towson.edu/scs for hours, locations and a full list of SCS services.

THE TUTORING AND LEARNING CENTER
Albert S. Cook Library 524 // 410-704-2291
tlc@towson.edu // www.towson.edu/tutoring-learning
Hours: M–F, 8 a.m.–5 p.m.; Tuesday, 8 a.m.–7 p.m.
The Tutoring and Learning Center is a full-service learning center for Towson University students. Centrally located in Cook Library, it assists students in achieving their academic goals. Its mission is to facilitate a community of learners through high-quality tutoring, structured study groups and study skills workshops. Services include academic coaching, computer-assisted study skills (CASSI), placement testing, tutoring, study groups and workshops.

THE WRITING CENTER
Liberal Arts Building, room 5330 // 410-704-3426
Hours: M–Th 9 a.m.–7 p.m.; F 9 a.m.–4 p.m.
Su 3–9 p.m. in Cook Library
towson.edu/cla/centers/writing/
The Writing Center provides individual writing support to all members of the Towson Community, including undergraduate and graduate students and faculty and staff members. The Writing Center staff works with writers at any stage of the writing process from brainstorming to polishing the final draft. The staff supports writers with any type of writing project, whether that is a PowerPoint presentation, a lab report, or a resume. The Writing Center takes walk-in appointments when possible. As the term progresses, however, most of the sessions fill up each day. We recommend that you schedule an appointment a day or two in advance to make sure someone is able to meet you. Please bring your assignment sheet and two printed copies of your paper to the session.

TRANSFER STUDENT CENTER
Enrollment Services Building, room 331 // 410-704-3426
transfer@towson.edu // towson.edu/admissions/undergrad/transfer/
Hours: M-Th 8 a.m. – 5 p.m.; F 8 a.m. – 4:30 p.m.
The Transfer Student Center (TSC) provides resources for students transferring to Towson University from other institutions. Our mission is to ensure a seamless and well-informed transfer experience. The Transfer Student Center offers services to students at all stages of their undergraduate careers. The staff can answer questions you may have about your transfer credits or connect you with the campus resources you need.

A full list of Student Services & Resources is located online at www.towson.edu/studentlife/services/

**new location beginning Spring 2021

*POLICE
4444 - Emergency
2134 - Public Safety
**Advanced Placement (AP) credit:** College credits earned while in high school through advanced placement testing offered through the College Entrance Examination Board in Princeton, New Jersey.

**Advising (ADV) Hold:** All students who are not in the First-Year Experience (FYE) advising program and who are not within their last term before graduation are required to meet with the adviser assigned to them by their major department prior to registration for the next fall or spring term. This requirement is enforced with the Advising Hold which is indicated by and which prevents students from registering. Once the student has completed the advising requirement, their adviser will remove this hold.

**attempted units vs. earned units:** Attempted units are the number of units that a student enrolls in for credit. Earned units are the number of units for which a student receives a passing grade. For example: if a student starts the term with 15 attempted units and fails one 3-unit course, the student will have attempted 15 units, but earned 12 units.

**audit:** A grading option which allows a student (with written permission from the instructor) to attend and participate in a class without earning a calculated grade or credit toward graduation. See Undergraduate Catalog for detailed information.

**Bachelor of Arts degree:** Completion of all requirements listed in the designated catalog for the Bachelor of Science degree in addition to completing two language courses at the intermediate level in college, or completing at least one course beyond the intermediate level in college.

**Bachelor of Science degree:** Completion of all requirements listed in the designated catalog including completion of the online application for graduation, 120 earned units which include course work to satisfy all Core Curriculum requirements, 32 upper-level units (courses numbered 300 and 400), completion of a major with a minimum of 2.0 grade equivalent for all courses applied toward the major, a cumulative GPA of at least 2.0, and completion of at least 30 units in residence at Towson University.

**Bachelor of Fine Arts degree:** Completion of all requirements listed for the Bachelor of Science degree in addition to the performance and studio requirements specified by the Department of Dance and the Department of Art + Design, Art History, Art Education.

**Bachelor of Music degree:** Completion of all requirements listed for the Bachelor of Science degree in addition to the performance and studio requirements specified by the Department of Music.

**catalog:** College catalogs provide all types of information that parents and students need to know about a school, including the institution’s history and philosophy, policies and procedures, accreditation status, courses of study, degrees and certificates offered, graduation requirements, campus map, admission and enrollment procedures, financial aid, and student life activities. Each student is assigned a catalog year based on when they enter Towson University. Towson University uses an electronic undergraduate catalog that can be found online.

**change of schedule period:** The days following the start of classes each term in which students may add, drop or swap classes from their original schedule. Dates are determined by the Registrar’s Office each term. This is also known as the Add/ Drop Period.

**class number:** The number assigned to each individual class section for the purpose of registering for that particular class and section during registration. A four- or five-digit number in parentheses located to the right of the class name and section number as listed in the online services Schedule of Classes. The class number links a time, location and instructor to each course.

**class vs. course:** The word “class” is used to identify the days/times that a specific course meets (e.g., BIOL 201.001). These specific class meetings are called class sections. The word “course” is used to identify a common topic or subject area. These courses will share a common course number (e.g., ENGL, #102). Each course may have multiple class sections.

**Core Curriculum:** The University Core Curriculum is arranged to give students an opportunity to take courses in all of the critical areas that make up a liberal education. University Core Curriculum requirements include 14 courses in four categories: fundamentals, ways of knowing, writing in a chosen field and perspectives.

(Continued on next page)
course descriptions: Description of the content of the course and any prerequisites needed to enroll in the course. Course descriptions can be found at the end of the online catalog and also by clicking on the course name and number during the online enrollment appointment.

credits: See units/credits.

cumulative grade point average: Cumulative grade point average (GPA) refers to the overall grade point average, which includes dividing the number of quality points earned in all courses attempted by the total unit hours in all courses attempted in which a grade has been received.

degree: Awarded to undergraduate students for the successful completion of a program of study. Baccalaureate or bachelor's degree is the undergraduate degree offered by four-year colleges and universities. The minimum number of earned units required for a bachelor's degree is at least 120.

degree completion plan: An Individualized Degree Completion Plan (IDCP) takes the suggested plan of study for your major/concentration/track and personalizes it for your academic career given your unique needs, goals and aspirations. This plan could help save you time and money by highlighting a more direct route toward degree completion and graduation. All TU students are required to complete an IDCP when they have 45 or more earned credits.

enrollment: Also known as registration. This is the procedure by which students choose classes each term. A student enrolls in courses at Towson by logging onto Towson Online Services and adding courses to his or her schedule.

enrollment appointment: The day and time a student is eligible to begin course registration. Your opportunity to register or change your schedule starts with your enrollment appointment and ends the night before classes begin for the term. Appointments are determined by the number of units a student has earned—the more units earned, the earlier a student can register. The enrollment appointment can be found online on the Student Center page.

elective: A class a student can take that is not specifically required by the major or minor and is not included in the university Core Curriculum.

faculty: People who teach classes at a college. Some colleges differentiate between faculty and instructors. Instructors are hired to teach a specific class or classes, while faculty members have contracts with the college that require additional duties beyond teaching (such as research or advising). Faculty members are also referred to as professors.

freshman seminar: A class for first-year students, the seminar focuses on exploration and discovery, introducing students to the academic expectations for college-level work and the intellectual, communication and collaborative skills needed for academic success. The seminar (TSEM 102) is taught by faculty across all disciplines on a variety of topics. Any TSEM 102 course will fulfill the Core Curriculum requirement and must be completed with a grade of C or higher. The freshman seminar cannot be used for major credit. Students can choose which seminar topic to take and should complete this requirement in the first year at TU.

FYE adviser: A First-Year Experience (FYE) adviser is a faculty or staff member or a professional academic adviser who works specifically with first-year students to help them transition to college and make decisions about their education. Advisers are assigned prior to the first term in college and are selected, when possible, by areas of academic interest. An FYE adviser works with students for their entire first year at Towson. The FYE adviser is indicated by ORIE 305 (ORIE 306 in spring) on each student’s schedule.

FYE advising hold: A negative service indicator (★) found on a student’s Towson Online Services account. A negative service indicator can prevent students from registering for classes, changing classes, getting an official transcript, or other official university business. The FYE hold will be removed and access to registration restored only after students meet with their academic adviser. Other negative service indicators can be placed by the Health Center, Bursar’s Office or Admissions Office.

grade point average (GPA): The grade point average (GPA) is a common method used to measure academic performance. The GPA is calculated by dividing the total amount of grade points earned by the total amount of unit hours attempted. A grade point average may range from 0.0 to 4.0. A student has a grade point average calculated for each college term, as well as a cumulative grade point average.

hold: A hold is a negative service indicator (★) placed on a student’s account when there is an outstanding student obligation, such as unpaid tuition, immunization records needed, academic advising, unresolved student conduct issues, etc. Failure to satisfy outstanding obligations may result in the holding of transcripts and may prevent registration for classes for the next term.

Honors College: An enhanced college experience for the most highly qualified and motivated students (as determined by test scores and grades). Entering freshmen are invited to apply for admission to the Honors College. Rising sophomores also may apply. All applicants must meet the Honors College’s stringent admission standards. Students must complete 24 units of specific coursework and maintain at least a 3.30 grade point average to remain in good standing in the Honors College. Students in the Honors College enjoy smaller class sizes, priority registration, access to special campus facilities (including honors housing) and merit scholarships. Most students are admitted to the Honors College for their freshman year, but continuing and transfer students on the Main Campus may also apply. (Honors College classes are currently not available at off-site locations.)
honors course: Classes available only to students enrolled in the Honors College. Many honors courses are enhanced versions of Core Curriculum requirements, but can also be specifically designed to meet the requirements of the Honors College. Honors courses use different course numbers and enrollment can only be accessed by those accepted into the Honors College.

International Baccalaureate (IB) courses: Some high schools participate in a rigorous program of academic study called the International Baccalaureate. If a student scores high enough in IB courses, TU will award the student college-level credits.

individually designed major: Sometimes a student is interested in a major that TU does not offer. The Individually Designed Major (Thematic Option) gives students an opportunity to put together a program of study based on a major offered at another college or university. It requires a lot of thought and planning, but can be a rewarding experience for a student.

interdisciplinary studies major and minor: Majors and minors in this area bring together courses from different academic departments into unique programs. Currently there are four majors and nine minors in this program. These majors are great for students with a broad range of interests. For example, the interdisciplinary studies major in American studies includes courses in history, anthropology, English, art history, geography, music, philosophy, political science and sociology, as well as American studies.

internship: Internships provide students with opportunities to gain real-world experience and build their skills and network of contacts while earning academic credit. Some majors at TU require one or more internships while others encourage their students to do an internship. While most students in internship programs at TU are juniors or seniors, a growing number of freshman and sophomore students are entering internships to explore careers of interest to them.

Language Proficiency Exam (PE exam): Students with strong skills in a language other than English may apply to the Department of Foreign Languages to take a challenge exam usually offered in November. Contact the Department of Foreign Languages for a list of language exams, application information and test dates.

major/academic plan: A major, also known as the academic plan in the Towson Online Services system, is an approved set of courses within an academic discipline (e.g., psychology, elementary education or nursing). A student must declare and meet the requirements for the major as stated in their assigned Undergraduate Catalog. A student must officially declare a major by the time he or she reaches 60 earned units (junior standing).

major concentration: A concentration is a sequential arrangement of courses representing a specialized area of study within a program. A concentration requires a minimum of 25 units and should have enough unique units to distinguish it from the major, track or another concentration. A concentration will appear on the student’s transcript as a sub-plan upon graduation.

major track: A track is a sequential arrangement of courses representing a specialized area of study within a major program.

minor: An approved set of courses within a major area of study, or a separate, distinct thematic area of study consisting of at least 18 and no more than 30 units. A minimum of 12 units must be upper-level courses (300–400 numbered courses) and no more than 12 units can be taken outside of the minor or thematic discipline. A grade equivalent of 2.0 or higher is required in all courses completed toward the minor.

(Continued on next page)
National Student Exchange: This program allows full-time degree candidates an opportunity to become acquainted with social and educational patterns in other areas of the United States. Through Towson’s membership in the NSE, students may attend one of the 190 participating schools for a term or a full year. Schools participating in the program include those in 47 states, Puerto Rico, Guam and the Virgin Islands.

open major: A student who has not officially declared a major or who has decided to change from a declared major but does not have a specific replacement.

Pass/D or F Grading Option: The grade of PS (Pass) is assigned to a course selected on the Pass grading option when students earn a C grade or higher. Students who elect the Pass grading option and earn a grade of D+ or lower will have the actual earned grade recorded on the permanent record and used in calculation of the grade point average.

placement test: test to determine correct level for courses in math, reading, writing and foreign languages

prerequisite course: A course taken in preparation for another course. For example, ACCT 201 is a prerequisite for ACCT 202. Prerequisite requirements for courses are listed in the Undergraduate Catalog as well as the class search function in Towson Online Services.

Registrar’s Office: The registrar is responsible for maintaining all academic records, including updating records and grades, handling transcripts and assigning enrollment appointment dates.

schedule of classes: a list of courses being taught each term that includes days, time, faculty member, prerequisites, restrictions, seat limits and seat availability and descriptions. It is either real-time (online) or PDF (updated once a day).

seat permit: Permission from the department offering the course for a student to enroll. The seat permit applies if the course is restricted in some way.

section number: Each class offered during the term is assigned a section number which determines the days and times the class meets and indicates who the instructor is. A course can have many sections or only one section.

semester: See term/term.

screened major: A major that lists conditions under which students are admitted to that major. Not all majors are screened at Towson University. These conditions can include completion of specific courses, attaining a predetermined GPA, and completing application materials submitted by published deadlines. Application conditions and procedures for screened majors are listed within the major department information in the online catalog. Be sure to access the catalog of the year you began at Towson to see the requirements you need to complete.

syllabus: An outline or overview of the important information about a course. It usually includes the instructor’s contact information and office hours, grading policy, recommended or required textbooks for the course, important dates and deadlines, assignments, and other course expectations.

term/term: The time period for which college classes are in session is referred to as an academic term. Towson University’s primary terms are the fall and spring terms, which are approximately 16 weeks in length. Other terms include summer trimester, which ranges from five to eight weeks, and minimester (winter term), which lasts approximately three weeks.

transfer credit: Credit received at another college/university which is then accepted when the student enrolls at Towson University. Most non-developmental courses in which a student receives a D (1.0) or higher are accepted. Courses accepted in a major require a grade of C (2.0) or higher.

transcript: The official permanent academic record of the student. It shows courses attempted and completed, units and grades earned, and academic status, including academic honors and suspensions. Unofficial transcripts are also available which include all of the above and any terms of warning.
**Towson University (TU):** TU is organized into seven undergraduate colleges (College of Business and Economics, College of Education, College of Fine Arts and Communication, College of Health Professions, College of Liberal Arts, Jess and Mildred Fisher College of Science and Mathematics, and the Honors College). Each college is organized into departments. Each department determines requirements for each major and minor offered by the department.

**Towson University in Northeastern Maryland (TUNE):** Towson University in Northeastern Maryland is a Towson facility located in Harford County for students who have completed 60 credits or an associates degree. TUNE offers 9 undergraduate programs of study and are located at 510 Thomas Run Road, Bel Air, MD 21015.

**undergraduate:** A term used to describe college freshmen, sophomores, juniors and seniors who are pursuing baccalaureate (bachelor’s) degrees, associate degrees and certificate programs.

**units/credits:** Courses taken in college are measured in units, also known as credit hours or credits. To earn one unit, a student must attend a class for one classroom hour each week of the term. Classes are offered in 1–6 unit increments, with most classes being 3 units.

**warning hold:** A service indicator placed on a student’s record when the cumulative GPA falls below the standard for a student’s classification. This hold requires the student to participate in intervention activities. The warning hold does not appear as a permanent part of the official transcript.

**withdrawal from a course:** Voluntary disenrollment in a course by the student after the add/drop period has ended. A grade of W is recorded on the official transcript; the W grade is not calculated in either the term or the cumulative GPA.

**withdrawal from the university:** Voluntary disenrollment from the university by the student. Grades of W are recorded on the official transcript from all enrolled courses for the specific term. The W grades are not calculated in either the term or the cumulative GPA.
