## WELCOME FROM PRESIDENT KIM SCHATZEL

On behalf of Towson University, I congratulate you on your momentous achievement. Whether receiving your bachelor's, post-baccalaureate certificate, master's or doctoral degree, we are excited to celebrate your many accomplishments. Today you become members of a distinguished group: Towson University alumni. To get this far, you have had to exhibit discipline, commitment, resolve and leadership. These qualities will serve you well in any endeavors you may tackle. The presence of our regents, faculty and staff at Commencement reflects the immense pride that our university has in its outstanding graduates.

Towson University works hard to ensure its students emerge well prepared for their professions and ready to make intellectual contributions and discoveries within their respective fields. Our faculty and staff feel privileged to have played a part in educating such an extraordinary group of students. We know that as our newest graduates, you will make notable contributions to the greater Baltimore region and to the world.

We also extend an especially warm welcome to the family members and friends who are joining our students on this special day. We know your presence means so much to them and we thank you for the support and encouragement you have given them throughout their time at Towson University.

Graduates, as you enter the next chapter of your lives, I want to remind you that you will always be a part of the Towson University family. I challenge you to show the world your capabilities by using the knowledge you have gained.

Be a shining example of why TU graduates matter to Maryland!

A handwritten signature in black ink that reads "Kim Schatzel". The signature is written in a cursive, flowing style.

Kim Schatzel, Ph.D.  
*President*

# TU FOUNDATION BOARD OF DIRECTORS

Greetings from the Towson University Foundation Board of Directors.

As president of the Towson University Foundation and a Towson University (TU) alumna, it is my great privilege to congratulate you—our 2022 fall graduates. You have accomplished so much during your TU journey, and you should know that our entire community is incredibly proud of you!

Your time and experiences at TU are your own, and you should cherish the path you took to reach this special day. You encountered challenges and opportunities over the years, and you persisted and succeeded. Today is a moment to reflect on how far you've come and the people who helped you reach this point. It is also a day to celebrate you! We commend your tenacity and dedication, traits that will serve you well as you venture into the world.

Our faculty, staff, alumni and friends are so pleased that Towson University has created and provided experiences that helped shape your success. Hold onto the knowledge, perspectives, relationships and experiences you gained during your time at TU; they will absolutely help direct your future. Looking back, I am grateful for the excellent education, lasting friendships and character-building moments that led me to become the person I am today. It is an honor to give back to TU, which gave so much to me.

The world awaits and needs you. Make a difference locally and globally. Stay connected, stay informed and stay involved at TU. This university is strengthened by you, our alumni, and the impact of your individual and collective achievements. We wish you the very best on your personal and professional journey and look forward to seeing you back on campus often.

On behalf of the TU Foundation Board of Directors, I commend, congratulate and celebrate you on this wonderful occasion. Wherever life takes you, continue to seek out opportunities to lead, serve and learn. We are so proud of you and wish you all the best in your future endeavors.

Edna Primrose  
*President, TU Foundation*

## GREETINGS FROM THE ALUMNI ASSOCIATION

On behalf of the Towson University Alumni Association, I want to extend my sincerest congratulations as we welcome you—our newest members—to the TU alumni family. Today you join a prestigious group of more than 186,000 graduates, and we cannot wait to see the unique and much-needed ways you put your degrees and talents to use throughout greater Baltimore and beyond.

You have overcome tremendous obstacles to reach this momentous milestone, and throughout the experience, you have continually shown the impressive power of hard work, a positive attitude and sheer determination. We are proud of all you have accomplished to get to this point, and we are equally excited to see what you do next.

Although you are embarking on an incredible new chapter of your journey filled with promising opportunities, please remember that you always have the support of the alumni association behind you—in spirit and practice. It is our hope that you will stay connected and use the association as a resource throughout your career, no matter where it leads you.

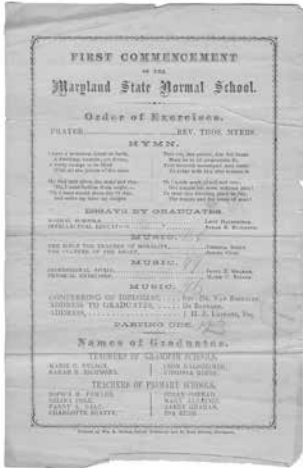

Again, I congratulate you on this fantastic accomplishment, and I enthusiastically welcome you to the Towson University Alumni Association.

A handwritten signature in black ink that reads "Jonas Jacobson". The signature is fluid and cursive, with a long horizontal line extending to the right.

Jonas Jacobson '90  
*President, Towson University Alumni Association*

# HISTORY OF TOWSON UNIVERSITY

*First Commencement program: Commencement took place in June 1866, just months after the school opened.*

*Class photo: MSNS students seated outside the building at Carrollton and Lafayette avenues in Baltimore. The school called this home from 1876–1915.*

In 1864, in the midst of the American Civil War, Maryland ratified a new state constitution and created a school for the instruction of teachers, naming it the Maryland State Normal School (MSNS). Normal in this instance referred to *écoles normales*, a French term for teacher training institutions.

A year later, McFadden Alexander Newell was appointed the first principal of MSNS, and on Jan. 15, 1866, the school opened its doors in Baltimore. Besides Newell, there were three other faculty members—who taught drawing, music and calisthenics—and 11 pupils. In June, MSNS graduated its first class of new teachers.

At first, counties selected promising students to attend for free, so long as those students signed pledges that their objective in attending MSNS was to earn a teaching certificate and teach in the state’s public school system. The curriculum was flexible, adjusting to the students’ needs as they entered the school. This was necessary because of the differences in educational practices across the counties. At the end of the program—whether it took one year or three—the graduates received a teaching certificate that allowed them to teach at any public school in Maryland.

Between 1866 and 1876, the school occupied three different buildings in Baltimore, renting them until Baltimore City built its first home at Carrollton and Lafayette avenues. This space was large enough for the now 206 students and 11 teachers, as well as the model school, and the school remained there for almost 40 years.

While the school building was certainly larger and more comfortable, it didn’t remain so for long. It was constructed to accommodate 226 students, but by 1909, the state needed 350 new teachers every year to fill vacant positions. Even with the construction of a second normal school in Frostburg in 1902, there weren’t enough graduates to fill the teacher shortage. And there were other concerns about its location. The Carrollton building had large lecture halls, but changes in teaching practices demanded smaller classrooms and it was not easy to adapt the building to fit those needs. Because there were no dormitories, students who lived too far from the school to commute had to find boarding houses in Baltimore. The lack of space led to a campaign by the school’s fourth principal, Sarah Richmond, to convince the state to find a new location where MSNS could grow.

On Sept. 20, 1915, the first classes were held at the new location in Towson. Three buildings were constructed—an Administration Building, today known as Stephens Hall, which held all the classes as well as a library, space for the model elementary school and the offices for the staff and faculty; Newell Hall, which was a dormitory for women and also held a dining hall; and the Power House, now known as the Power Plant. Other buildings already stood on campus, including an elegant house named Glen Esk, which became the principal’s residence as well as the main focus for entertaining on the campus.

For the next 25 years, the school's future was linked to the nation's as America teetered from World War I to the Depression to World War II. The school numbers dwindled as students and teachers enlisted or found higher-paying civil service jobs to aid the war effort. School leaders waged a campaign to raise the pay rates of state teachers, hoping that by doing so they could attract more prospective teachers to the school.

In the meantime, MSNS kept evolving. Summer sessions began in 1918. By 1920, standards for incoming students were changed and the course in remedial education was phased out. In 1931, the school curriculum was increased from a two-year course of study to three years.

The sixth principal, Lida Lee Tall, placed special emphasis on the students' social and physical education needs. After her arrival, student organizations and sports teams grew. A student newspaper, *The Oriole*, began in 1921 and was renamed *The Towerlight* in 1927. The school began to celebrate May Day, which included dancing around the maypole and crowning the May queen. Donald "Doc" Minnegan joined the faculty as a physical education teacher in 1927 and established a men's soccer team soon afterward. The school administration began giving serious thought to creating a sports program on campus.

In 1934, after a change in Maryland law that required teachers to have a baccalaureate degree, the curriculum was again amended, and the school was granted the ability to award four-year Bachelor of Science degrees in elementary education. This also led to name changes for the Maryland state normal schools, which were now called state teachers colleges, and the title of principal was changed to president. By 1936, Maryland State Teachers College (MSTC) was meeting accreditation standards set forth by the American Association of Teachers Colleges and the American Council of Education.

With the start of World War II, the need for teachers across the state skyrocketed, while the enrollment at MSTC dwindled. M. Theresa Wiedefeld, who became president of MSTC in 1938, took a two-pronged approach to the dilemma. In 1943 she created an accelerated program so students could condense four years of study into three and enter the workforce sooner. Second, she created a junior college program for arts and sciences courses in 1946 that allowed returning military veterans to take background courses in the liberal arts and then matriculate into liberal arts colleges. This would pave the way for Towson University's transformation into a liberal arts college.

The school's post-World War II period was one of amazing growth and expansion in enrollment, campus facilities and academic programs. Earle Taylor Hawkins became president of the school in 1947. During his 22 years of leadership, enrollment increased more than 2,100% and 12 structures were built on campus—more than doubling the number of existing buildings. The Lida Lee Tall School, built in 1960, was the second building to bear her name on campus. It housed the campus elementary school until 1991, when the experiment in campus elementary schools ended. In 1949, the curriculum was expanded and students could now opt for a degree in elementary

*1935 Commencement on Glen Esk lawn: The first graduates to receive baccalaureate degrees are seated and dressed in regalia. Before this, graduates wore white gowns or suits.*

*This 1905 Commencement program of the Maryland State Normal School depicts Minerva, Roman goddess of wisdom.*

*Due to increasing graduating classes, ceremonies were held in Baltimore's Civic Center during the 1970s until the construction of the Towson Center in 1976.*

*Today Commencement ceremonies are held in the SECU Arena and split over two days, to accommodate the number of degree candidates and guests.*

education or primary education. This is also the year that the school was first accredited by the Middle States Association of Colleges and Schools.

As the nation's postwar economy grew, so did the school's enrollment, and for the first time, enrollment of men was high. In 1951, the school built two dormitories, Ward and West halls, to accommodate male students. Before this, men who needed to live on or near campus had been housed in various non-academic buildings, such as the Cottage, on the top floor of the Power Plant or in boarding houses in Towson.

Thanks in large part to Minnegan's efforts, the sports teams continued to grow, with the addition of baseball, gymnastics, track, wrestling and, in 1958, lacrosse.

On May 17, 1954, a landmark U.S. Supreme Court case, *Brown v. Board of Education*, overturned state laws establishing racially segregated public education. For more than 50 years Maryland stipulated that its Black citizens attend "separate but equal" schools. They were separate but too often unequal. The Supreme Court's decision opened the door to educational opportunity. Marvis Barnes '59 and Myra Harris '59 stepped through to enroll at the State Teachers College at Towson. Harris and Barnes, both stellar high-school graduates with glowing recommendations, were to become the first Black students to earn bachelor's degrees from the college. For four years they (and the pioneering Black students who followed them) brought a limited amount of diversity to the overwhelmingly white campus.

The Master of Education program began in 1958. Two years later, the bachelor's program was expanded once again, this time to include a specialization in high school education. At the same time, the junior college begun by Wiedefeld was extended to a four-year program, and students could now earn a Bachelor of Science or Arts in art, biology, English, speech and drama, elementary education, geography, history, mathematics or physical education. This was due in part to the huge influx of students generated by the coming of age of the Baby Boom generation. Higher education was flooded with students, and in order to accommodate them all, teachers colleges could no longer afford to specialize only in education.

In 1963, the state made the five teachers colleges—Towson as well as Bowie, Coppin, Frostburg and Salisbury—into liberal arts colleges, and the name changed to Towson State College. And almost 10 years later, in 1972, the Pledge to Teach tuition waiver was abolished—more than 100 years after it was first put into place.

This period was another of expansive growth. Ten more buildings were added to the campus. Enrollment for day and evening students had climbed to more than 14,000 by 1976. In 1965, evening and summer classes, which had begun in 1958 for employed students working on their education master's degrees, expanded to include more offerings in other concentrations. And by 1976, the academic program offered 40 majors including art, business administration, English, nursing, political science and theatre and six master's programs in geography, psychology, audiovisual communications, biology, speech pathology and audiology and education.

The school's sports programs also grew. In 1963, the Towson Tiger was adopted as the school's mascot. In 1968, Towson University established a football team, which lost its first Homecoming game, played against Gallaudet College. This is the same year that Wiedefeld Gymnasium was razed and replaced by a more state-of-the-art facility, Burdick Hall.

After specific guidelines were created to establish the difference between a college and university, Towson State College became Towson State University (TSU) on July 1, 1976.

Twelve more buildings were added to the campus, most of them student service buildings like dormitories and parking garages. A stadium, originally called Minnegan Stadium, opened in 1977, highlighting TSU's dedication to growing its athletic programs. In fact, in the 1980s, the football team won the Division II Eastern College Athletic Conference title.

Academic programs were also expanding during this time. The departments themselves were restructured into six colleges, which still stand today.

Higher education in Maryland was also reorganized. In 1988, TSU, along with other Maryland schools, merged to form the University of Maryland System, headed by a board of regents and chancellor. This organization was renamed the University System of Maryland in 1997.

That year, after much discussion and debate, Towson State University dropped the word "State" from its name. It was considered a step that would elevate the university in people's minds and also allow the school to develop its own identity while remaining in the university system. This change, which had been made by schools in neighboring states, reflected the lack of funding the school received from the state.

Since its latest name change, Towson University (TU) has continued to grow and expand in terms of enrollment, academic programs and campus facilities. In 2001, TU inaugurated its first doctoral programs, one in audiology and another in occupational science. Since 2000, the campus has erected or is in the process of constructing 15 new structures. The new Science Complex, for example, is TU's latest — and largest — academic space, a new building for the College of Health Professions is under construction. Residence hall space, too, has increased, mostly in the West Village part of campus. Since 2000, the campus has created residence space for more than 2,400 students, including the construction of new, apartment-style buildings in West Village, the renovation of Residence Tower and the conversion of a private hotel into student residencies.

The Science Complex, which opened last year, is a 320,00-square-foot, state-of-the-art academic and research space along York Road near historic Stephens Hall. Since its opening, it's been the home for TU's Jess and Mildred Fisher College of Science & Mathematics and has 50 teaching laboratories, 30 research laboratories, 50 classrooms and more.

Construction is also underway on a brand new building for the College of Health Professions, which will bring programs including audiology, nursing, speech-language pathology, occupational therapy and health sciences under one roof for the first time. It is planned to open in summer 2024.

Towson University endeavors to create and continue partnerships within the community, underscoring the school's history as an organization that applies methods learned in the classroom to real-world experiences. The ability to adapt to a constantly changing world while continuing to build on its long history has helped to make Towson University the outstanding institution it is today.

Towson University seeks to cultivate relationships with Native American and Indigenous communities and nations through academic pursuits, partnerships, historical recognitions, community service and enrollment efforts. These communities and nations include the Susquehannock, Nentego (Nanticoke) and the Piscataway people, who consider the land that the university currently occupies part of their ancient homeland.

We hereby acknowledge the ground on which we reside so that all who come here know that we recognize our institutional history and our responsibilities to the peoples of that land and that we strive to address that history so that it guides our work in the present and the future.

[towson.edu/inclusionequity/diversity/recognizing-indigenous-people-land.html](https://towson.edu/inclusionequity/diversity/recognizing-indigenous-people-land.html)

# UNIVERSITY TRADITIONS

## Regalia

Commencement is a celebration and an academic ceremony. As such, Towson University is guided by the Academic Costume Code as outlined by the American Council on Education (ACE). All Commencement participants are encouraged to maintain a measure of decorum consonant with the occasion.

The caps and gowns worn by degree candidates and faculty in the academic procession have been the traditional costume of the scholar since medieval times and probably represent an adaptation of the ecclesiastical dress since many of the scholars of that period were members of monastic orders.

The bachelor's gown is distinguished by its long, pointed sleeves. The master's gown has longer, narrower, closed sleeves, extending below the knee; the arm is passed through a slit at the elbow. Finally, the doctoral gown has a full, bell-shaped sleeve with three bars of velvet and an opening faced with wide velvet bands. The velvet trim may be black or of a color indicating the field of learning of the wearer or the institution from which the wearer earned their highest degree.

At Towson University, our graduate students also wear hoods on top of their gowns, trimmed in a colored velvet band to indicate the degree earned.

## The Alma Mater

Two graduating students sing and sign the Towson University Alma Mater at the close of every Commencement ceremony. The music was composed by J. Kyle Richards and orchestrated by Brian Balmages.

## Ceremonial Mace

The ceremonial academic mace first appeared in European universities during the 14th century and was carried before royalty, mayors of cities and chief officers of the medieval universities. The academic mace represented the amalgamation of two much-older pieces of history: the regal scepter and the medieval battle mace.

The mace immediately precedes the presidential party in the ceremonial procession and is considered one of academia's most treasured symbols of office. It is a fitting symbol and combination of the requisite discipline and earned stature that comes with the academic achievement.

Towson University's mace is beautifully constructed in glass, black metal, gold and maplewood coming together to represent institutional concepts and a visual history of the university. Our mace was commissioned and gifted by the late President Emerita Maravene Loeschke. It was designed and executed by four faculty members in the College of Fine Arts & Communication: Joshua DeMonte, Jenn Figg, Kimberly Hopkins and Jon Lundak.

## Gonfalons and Banner Carriers

Gonfalons are ceremonial banners carried on a long pole by students to represent each college, graduate studies and the Honors College. The student banner carriers are specially selected by their colleges to represent one of the three entities for each ceremony. Banner carriers symbolically lead their classmates into the future by carrying the banner at the head of the Commencement procession. This is a very special honor, and we thank our banner carriers.

## International Flags

The university is dedicated to cultivating a global learning community and international focus in programs and curricula. The flags displayed on stage during Commencement represent a sampling of the 90-plus home countries of our international students, faculty, exchange scholars and visiting faculty.

## Latin Honors

Latin honors are awarded, by college, to undergraduate students in the top 10% of their graduating class based on the cumulative grade point average of all coursework completed in residence at Towson University. In order to be eligible to earn Latin honors, students must have earned at least 56 units in residence at Towson University. Latin honors GPA cutoffs for each college are based on the top 10% of the students from the graduating classes of the previous academic year. Students with majors in two or more colleges earn the highest Latin honors for which they are eligible. Honors are evaluated after the ceremony and will appear on the transcript and diploma when awarded.

*Terry Berkeley, professor emeritus of early childhood education, carrying the academic mace into the ceremony to signify the start of the procession.*

*Presidential medallion bearing the university seal*

*Stephens Hall Bell Tower*

### **The Presidential Medallion**

The medallion is circular, symbolizing the continuous impact that Towson University has on the lives of those who learn here. The outermost circle contains the university name and location. At the center is the university seal with its shield that incorporates the Great Seal of Maryland's Calvert and Crossland arms quartered. Above the shield are the original earl's coronet and the pennants. The university's founding year, 1866, is inscribed on a banner beneath.

### **Stephens Hall Bell Tower**

Stephens Hall is the oldest original building on the campus. Its history and lore have become part of our students' college experience. The bell tower is especially beautiful, and as part of a tradition in honor of our new graduates, the Stephens Hall bell will toll 16 times at the start of each ceremony, one for each member of the first graduating class.

### **University Commencement**

Every May, one Commencement ceremony features a prominent Commencement speaker from outside of the university community. The ceremony with this notable speaker will be designated as the University Commencement. Although one ceremony will carry this designation, all ceremonies are equally significant to our university community.

### **University Seal**

The university seal is adapted from the reverse of the Great Seal of Maryland. At its center is an escutcheon, or shield, bearing the Calvert and Crossland arms, quartered on an antiqued gold background. Above is an earl's coronet and the pennants. The university's founding year, 1866, is inscribed on a banner beneath.

# CEREMONY ETIQUETTE

Commencement at Towson University is a formal and friendly ceremonial occasion. To ensure that all participants and guests have a positive experience, we ask that everyone in attendance demonstrate courtesies and behaviors befitting the dignity of this academic and personal milestone. We encourage all participants and guests to refrain from engaging in any behavior that disrupts the ceremony or prevents anyone in attendance from hearing each graduate's name or seeing each graduate walk across the stage (e.g., audible private conversations, excessive and boisterous yelling, blocking the view of others).

## For Degree Candidates

- All degree candidates are expected to remain in their seats until the conclusion of the ceremony and may not leave before the final recessional.
- Candidates for bachelor's degrees, please note that the mortarboard should be worn so that it sits parallel with the ground, with the tassel hanging on the right front side. During the ceremony, the officiant will ask undergraduate degree candidates to move their tassels to the left as a mark of the official awarding of their degree. Master's and doctoral candidates should wear caps with the attached tassel hanging to the left.
- Please remain seated for the duration of the ceremony. Degree candidates will be directed to stand and exit the stadium when appropriate.

## For Guests

- Guests are requested to remain in their seats during the ceremony and not congregate on the concourse. Guests should also not block the aisles or passageways by attempting to greet or take photos with degree candidates.
- Tripods and other photographic or video equipment may not be placed on the floor of the stadium or in the aisles as doing so creates congestion in walkways that must remain clear for safety reasons.
- To allow for the names of all degree candidates to be heard by their family members and guests, we ask all audience members to be considerate of other graduates' guests by providing no more than 2–3 seconds of celebration or applause for their graduate. Guests who bring or use signs, umbrellas, fireworks, beach balls, balloons, air horns, bells or noisemakers will be asked to leave the stadium.

# EVENT INFORMATION

## Ceremony Captioning Service

Scan the QR code for access to ceremony captions directly on your phone. Please note: Because the number of downloads for this service is limited per ceremony, we ask guests to consider other guests who may need this service before downloading. A QR reader is available in the TU Commencement Guide (located in the TU Event Guides app).

## Ceremony Length

Each ceremony lasts approximately 90 minutes to two hours, depending on the number of degree candidates in each ceremony.

## Concessions

Water is available free of charge at concession stands (60 minutes before start of ceremony) that will remain open throughout the ceremony. Water may be taken to guest seats.

## Degree Candidate Procession

The degree candidates will be in alphabetical order when the procession enters the arena, alternating on each side. The JumboTron allows family and guests to see all candidates well, despite not knowing on which side they will enter the arena.

## Emergencies

Contact University Police 410-704-4444 and/or 911. The following coordinates can be used when giving the location of SECU arena 39.38980 -76.61565 or 7500 Osler Drive.

## First Aid

A first aid station is provided inside the arena in case of an emergency. It is located on the concourse level (on the same side of the arena as the will call area).

## Gifts

TU merchandise is available at the University Store in the Union. Hours: Monday through Friday, 9 a.m. to 6 p.m.

## Lost and Found

Lost and found items can be claimed by contacting a staff member on the day of the ceremonies or afterward by calling the information desk of the University Union, 410-704-4636.

## Lost Child

If a child has been separated from his or her family, immediately notify the nearest TU event staff member or police officer, who will attend to the child. TUPD can be reached at 410-704-4444.

## Meeting Location

Graduates should plan to meet their families at their cars after the ceremonies and not in the robing tent or the parking lot.

## Mobility Impaired Assistance

**Seating:** These areas are located on the concourse level of SECU Arena in the black club seats and are limited to the person with mobility impairment plus one guest. Due to limited seating, only one guest per party is permitted. Guests in wheelchairs can be accommodated on the concourse level in sections 102, 106 and 110.

**Mobility Assistance Transport:** This service will be available to take individuals in need from the Towson Center Lobby over to SECU Arena. Service will continue through and after the ceremony until all guests have been transported back to the Towson Center Lobby.

**Shuttle Service:** Shuttle buses will run continuously between the Union Garage and the Towson Center 90 minutes before the ceremony, during the ceremony and for 90 minutes after each ceremony. Regular shuttle routes will not be in operation.

## Names are Meant to be Heard

At Commencement, we ask guests to be kind and courteous when you hear your student's name for the sake of our faculty, our friends, our families and our students. Please be respectful with applause so that all names can be heard at Commencement.

## Restrooms

Restrooms are located throughout the concourse and behind sections 101, 105, 106, and 107

## Seating

All seated will be handled by an usher. Please proceed to your assigned area to be seated fully with your party.

## Sign Language Interpreters

Sign language interpreters are located in section 104 of the arena. Anyone needing this service can go to section 104 and an usher will help seat you. Sign language interpreters will be signing in this area on a platform. No ticket is required for this area; however, your entrance ticket is still needed to enter the arena.

## Social Media

For pictures and ceremony information, follow TU on Facebook, Instagram and Twitter. Share your images with #TUproud.

## Tickets

All guests must have a ticket to enter. There will not be a Will Call.

## Video Recordings

All ceremonies will be streamed live through an embedded video player at the top of [towson.edu/commencement](http://towson.edu/commencement). In addition, TU will post all ceremonies in their entirety on YouTube within 48 to 72 hours.

## GRAND MARSHALS

The role of grand marshal is traditionally held by one of the university's longest-serving faculty members and is nominated by the dean of the academic college. The grand marshal carries the academic mace into the ceremony to signify the start of the processional.

MAGGIE REITZ

PROFESSOR, COLLEGE OF  
HEALTH PROFESSIONS

**Maggie Reitz** earned her Bachelor of Science and Master of Science degrees in occupational therapy from Towson University and went on to earn her doctorate from the University of Maryland, College Park. She has served as president of the Maryland Occupational Therapy Association and chair of the American Occupational Therapy Association's Commission on Standards and Ethics. Reitz has been a faculty member since 1987 and served 15 years as the chair of the Department of Occupational Therapy and Occupational Science. She also has served as interim chair of the Department of Health Science and acting chair of the Department of Kinesiology. She was appointed vice provost in January 2014. She also has served as acting provost and vice president for academic affairs as well as interim vice president for student affairs.

ALISON RIOS MILLET  
MCCARTNEY

PROFESSOR, COLLEGE OF  
LIBERAL ARTS

**Alison Rio Millett McCartney, Ph.D.**, is a professor of political science and faculty director of the Honors College. She has led the publishing of three books by the American Political Science Association (APSA), including *Teaching Civic Engagement Globally* and *Teaching Civic Engagement Across the Disciplines*, and international conference presentations on European politics and the pedagogy of civic engagement education and Honors education.

McCartney has received the University of Maryland Board of Regents Faculty Award for Mentoring, an inaugural TU Presidential BTU Community Engagement Award, the TU Outstanding Service-Learning Faculty Award twice, the P20 Partnership Award from Campus Compact Mid-Atlantic and the Distinguished Service award from APSA Political Science Education. She is founding faculty adviser for TU's interdisciplinary Undergraduate Research Club and a member of the executive editorial board of the *Journal of Political Science Education*, the editorial board of *European Political Science*, the American Democracy Project of the American Association of Colleges and Universities Steering Committee and the executive board of the Maryland Collegiate Honors Council. McCartney was the co-creator and co-chair of the TU-Baltimore County Model United Nations conference, a free civic engagement program for local youth.

A strong supporter of undergraduate research, McCartney has co-published with TU students and alumni and mentored more than 150 TU students in their undergraduate theses, independent study projects and international, national, regional and local undergraduate research conference presentations. She teaches diplomacy, civic engagement and European politics and is an internationally sought-after consultant on civic engagement pedagogy—serving in Europe, New Zealand, Cyprus, and Tunisia.

**Robyn Quick** is a professor and chair of the Department of Theatre Arts, where she teaches theatre history and dramaturgy. She began her career at Towson State University as an instructor in 1995 and then as an assistant professor at Towson University in 1998.

She has presented at numerous national and international conferences and has been published in *American Theatre*, *The New England Journal of Theatre*, *Slavic and East European Performance*, *Theatre Studies*, and the *Routledge Companion to Dramaturgy*, among others. She has served as a dramaturg at the Baltimore Shakespeare Festival, PlayWorks, Maryland Arts Festival and Everyman Theatre. Her dramaturgy has been recognized by the Literary Managers and Dramaturgs of the Americas with the Elliot Hayes Award for Excellence in Dramaturgy and by the Kennedy Center American College Theatre Festival with the Gold Medallion.

In 2012, while serving as a senior Fulbright scholar in Russia, Quick taught at the Russian State University for the Humanities and directed “Book of Grace” at the Playwright and Director Center in Moscow. In 2018, she directed “Fuente Ovejuna,” a famous 17th-century Spanish play with contemporary resonance, at Towson University. She guided theatre arts department through COVID-19—and kept students on track—when the theatre world closed down entirely for more than a year.

## UNDERGRADUATE STUDENT SPEAKERS

### Student Speaker Selection

In recognition of the student experience and excellence demonstrated by the entire class, it is the university's tradition to invite individual degree candidates to give remarks during each ceremony. Student speakers join a long list of outstanding graduates who have shared their personal journey, perspective and vision for the future at Commencement.

Selection of speakers is made by each academic college and is based upon the extent to which their achievement represents sustained efforts over the course of their academic career and is an exceptional model for Towson University graduates.

**Troy Koger | Baltimore, Maryland** is a graduate of the Baltimore School for the Arts and is a life-long student of music and vocal performance. His passion for music has led him to train and perform as a singer across multiple genres, including classical, musical theater, and other contemporary styles. In addition to collegiate music studies at Towson University, Koger has also trained at the Washington National Opera Institute for Young Singers and the Boston University Tanglewood Institute. Within the Baltimore–Washington region, he has had the privilege of performing in many of the area's premier venues, including the Joseph Meyerhoff Symphony Hall, Hippodrome Theater and the Kennedy Center. He has also sung the national anthem for the Baltimore Orioles and the Baltimore Ravens. As a promising young artist, Koger has also received awards and recognitions from Classical Singer Magazine, Maryland State Arts Council and the National Foundation for Advancement in the Arts. He has worked multiple, full-time jobs to support himself and his studies, and he has made it a priority to become a Towson University graduate. His post-baccalaureate aspirations include graduate studies and teaching in addition to performance.

**Zobaria Ashraf | Catonsville, Maryland** will be graduating summa cum laude with a double major in business administration/project management and business analysis and business systems and processes. While raising four children and working full time as a manager at TEKsystems, Ashraf led efforts to raise close to \$10,000 for nonprofit organizations such as Girls Who Code and Technovision, spearheaded a women's resource group to assist women in their IT careers, served as the social media manager for the SAP Student User Group, and was active in Tiger Toastmasters, the Data Analytics and Visualization Group, the Towson University Investment Group, Women in Business and TU iLead. She is a member of the Beta Gamma Sigma Honor Society and is a three-time recipient of the CIO Forum Scholarship. In the future, she plans to work as a project manager, pursue a a doctorate and continue advocating for diversity and inclusion for women in the field of information technology.

COLLEGE OF  
LIBERAL ARTS

**Owen Edwards** | Baltimore, Maryland is a member of the Honors College graduating with bachelor's degrees in English (writing concentration) and philosophy. Since transferring from the College of Southern Maryland in 2020, Edwards has worked as a tutor at the Tutoring and Writing Centers and served on the executive board of the Philosophy Forum. He was chosen to present his research at the Northeast Regional Honors Council conference in Philadelphia in April 2022, for which he also received travel grants, and has been a member of the Undergraduate Research Club. This fall, he is completing an Honors thesis entitled, "In Conversation: A Critico-Creative Study of Fiction Writing." Throughout his time as an undergraduate, Edwards has made efforts to amplify and represent the voices of his fellow students while serving as the student representative to the CLA Dean's Council and the chair of the CLA Dean's Student Advisory Council. He is applying to master's of fine arts and doctoral programs in creative writing. As he takes the next step in his academic journey, he would like to thank the committed faculty at TU, his friends and his family for their unwavering support and kindness.

COLLEGE OF  
EDUCATION

**Rasul Wright** | College Park, Maryland is graduating with a double major in history and secondary and middle school education. He is known to many as an historian, researcher, humanitarian, environmentalist, mentor, pastor and philanthropist. Wright serves as the president of Phi Alpha Theta National History Honors Society, Kappa Delta Phi International Educational Honors Society and Omicron Delta Kappa National Leadership Honors Society, with more than 120+ active members. He serves as a full-time teacher at a Title I middle school in Baltimore County with a large English learner population, teaching more than 128 students. Wright is an undergraduate researcher and recruitment coordinator for the College of Education, mentoring more than 45 undergraduate students. He is the co-founder of the Wright Brothers Endowment Scholarship, a scholarship targeting community leaders who strive to make positive changes within their communities. He also has the honor to be the second Rhodes Scholarship finalist in TU history.

FISHER COLLEGE  
OF SCIENCE &  
MATHEMATICS

**Malachi Wright** | College Park, Maryland is graduating summa cum laude with a Bachelor of Science degree in biology with a concentration in secondary education and a minor in biochemistry, bioinformatics and molecular biology. Before obtaining a full scholarship from Maryland Higher Education Commission allowing Malachi to attend Towson University, he received the Promise Scholarship, a full scholarship to Prince George's Community College, where he graduated with a degree in general studies with high honors in July 2020. During fall 2022, Wright received more than nine interviews from dental medicine programs across the country. Upon graduation, he will choose between attending Columbia University, the University of Pennsylvania or the University of Maryland's School of Dental Medicine to pursue his doctoral degree in dental surgery. Wright serves as an educator at Dundalk Middle School, co-founder of the Wright Brothers Endowment Scholarship, community leader, president of the Pre-Dental Society and president of the Omicron Delta Kappa National Honors Society. As a native of Prince George's County, Wright prides himself on continuously showing up for those in need. He is on a lifelong mission of bettering his community by improving himself. He believes that an example that is seen and heard is more valuable than an example that is only seen or only heard. He would like to congratulate the graduating Class of 2022 and encourage them to be great now!

COLLEGE OF  
HEALTH  
PROFESSIONS

**Gregory Chartier** | Brookeville, Maryland is graduating with a Bachelor of Science in exercise science. During his time at TU, he was named to the Dean's List every term for his academic excellence and was heavily involved with exercise science research. Towson University awarded Chartier with a summer research grant to support his research interests, and he has since presented his work at the department, university and regional levels. Chartier works as a personal trainer in Baltimore City to help others achieve their fitness goals and promote the benefits of exercise on overall health and wellness. Following graduation, he plans to enroll in TU's physician assistant program and specialize in physical medicine and rehabilitation. He looks forward to combining his interests of exercise science and medicine to continue to help others with their goals and overall health. Greg would like to thank his family, friends, TU's kinesiology department and his incredible mentors who have facilitated and supported his unforgettable undergraduate experience.

# HONORS COLLEGE | SUMMER/FALL 2022

The Honors College at Towson University provides an enhanced undergraduate experience for talented and high-achieving students. Graduates have pursued scholarly opportunities, including interdisciplinary seminars and research. Upon completion of 24 Honors units and meeting grade point average requirements, graduates earn the designation of university scholar. This appears on each graduate's transcript and diploma.

Learn more about these university scholars by visiting [towson.edu/honorsconvocation](https://towson.edu/honorsconvocation). All have unique stories forged from the desire to make the most of their time and the opportunities at Towson University. Like others before them who are now studying at Oxford, serving in the Peace Corps and working at top firms like Brown Advisory, these scholars will pursue professional opportunities across the country and around the world. They will be leaders in business and industry, education, public service, social service and the arts. With their completion of rigorous academic and cocurricular experiences at TU, the university is proud to celebrate the successes of this accomplished group of students and alumni.

## COLLEGE OF BUSINESS & ECONOMICS

The College of Business & Economics (CBE) develops high-quality and innovative programs and resources; connects individuals to opportunities and theory to practice in curricular, extracurricular and research activities; and transforms students who will have a positive impact within Maryland and beyond.

CBE offers four undergraduate majors, 11 concentrations and tracks, three Master of Science degrees, three post-baccalaureate certificates and six minors.

The business and accounting programs are accredited by AACSB International, which is the highest standard of achievement a business school can receive. Less than 5% of schools worldwide are accredited for business and only 1% are accredited for both business and accounting.

## COLLEGE OF HEALTH PROFESSIONS

The health care, wellness and sport industries are rapidly changing, and the focus on quality patient care, healthy lifestyles and fitness has never been greater. The departments and programs of the College of Health Professions prepare students for the promotion of health, fitness, wellness and quality of life.

The College of Health Professions accepts as its philosophical foundation the belief in the rights of individuals, families and communities to fulfill their potential in life. Graduates of the college are committed to serving the public and meeting critical demand for health care professionals in the region.

The college offers programs at the undergraduate and graduate levels that are designed to prepare professionals to assume roles in a variety of clinical, teaching and community health and wellness settings.

## JESS AND MILDRED FISHER COLLEGE OF SCIENCE & MATHEMATICS

The Jess and Mildred Fisher College of Science & Mathematics (FCSM) offers undergraduate and graduate programs in the physical, biological, mathematical and computational sciences, with a goal of increasing student success through improved student retention, persistence and time-to-graduation while simultaneously maintaining rigorous academic standards.

FCSM provides an unusually large number of opportunities for authentic research experiences for all undergraduate and graduate students, led by a research-active faculty of successful teacher-scholars.

The college hosts numerous STEM education and outreach programs including Towson UTeach—TU's path to becoming a high school science or mathematics teacher; STEM education for future early childhood, elementary and middle school teachers; and the Towson University Center for STEM Excellence located at the Columbus Center at Baltimore's Inner Harbor.

The FCSM also offers excellent pre-professional preparation for students planning to pursue careers in medicine, dentistry, pharmacy and veterinary medicine.

## COLLEGE OF FINE ARTS & COMMUNICATION

The College of Fine Arts & Communication provides a challenging and responsive environment to support creative and scholarly exploration with an emphasis on quality, integrity and personal expression.

The college's multidimensional education is student-centered and dynamic, seeking to engage the future by fostering interdisciplinary work, welcoming diversity in people and ideas, building collaborations with the community and continually challenging boundaries.

These attributes are developed through a broad liberal arts education and specialized professional training.

This unique educational experience results in highly motivated graduates who have the professional preparation and theoretical framework to take risks while pursuing their artistic, scholarly and professional ambitions.

In addition to a wide range of undergraduate and graduate programs, the college also offers all TU students the opportunity to participate in an exciting variety of academic and artistic experiences.

## FISHER COLLEGE OF SCIENCE & MATHEMATICS

## CANDIDATES FOR DEGREES · COLLEGE OF SCIENCE & MATHEMATICS

---

So that you may find your particular graduate in the procession, degree candidates will come forward alphabetically. While the goal is to be accurate, please understand any pronunciation errors are unintentional.

Towson University has made every attempt to include the names of all degree candidates in this program. Students who applied to graduate after the established deadline may not appear in the program. Please note that the list of candidates is tentative only.

## FALL 2022

### DOCTORAL PROGRAM

#### INFORMATION TECHNOLOGY

**Fahd Heliwan Almutari** previously earned a bachelor's degree in computer and information system from King Saud University in Riyadh, Saudi Arabia, and a master's degree in computer science from The Catholic University of America/Engineering College in Washington, D.C. The dissertation *The Digital Transformation of Higher Education Institutions (HEIs) in Saudi Arabia (SA): A study comparative analysis of in-person learning and distance learning* was completed under the supervision of Sun-Chul Hong and committee members Chao Lu, Yeong-Tae Song and Ramesh Karne.

**Zheyi Chen** previously earned a bachelor's in automation from Shanghai University of engineering science in Shanghai, China, and a master's in electrical engineering from Lawrence Technological University in Southfield, Michigan. The dissertation *Decentralized Machine Learning in IoT: A Heterogeneity Perspective* was completed under the supervision of Weixian Liao and committee members Wei Yu, Chao Lu and Alex Wijesinha.

**James Huy Ngoc Nguyen** previously earned a bachelor's in computer science from California State University, East Bay in Hayward, California, and a master's in applied science, telecommunications from University of Denver in Denver, Colorado. The dissertation *Heterogeneous Internet of Things: Architecture, Routing, Transport, and Security* was completed under the supervision of Wei Yu and committee members Chao Lu, Weixian Liao and Alexander Wijesinha.

**Navid Ordouie** previously earned a bachelor's in computer hardware engineering from Azad University at Central Tehran in Tehran, Iran, and a master's in information technology from Marymount University in Arlington, Virginia. The dissertation *Design Issues for 64-Bit Bare Multicore Webserver* was completed under the supervision of Ramesh Karne and committee members Alexander Wijesinha, Yeong-Tae Song and Chao Lu.

**Joel Edwin Weymouth** previously earned a bachelor's in computer science from Thomas Edison State University in Trenton, New Jersey, and a master's in computer and information systems from Boston University in Boston, Massachusetts. The dissertation *Innovation in Computer Science Education by Design and Implementation of an Educational Tool on a Bare Machine* was completed under the supervision of Ramesh Karne, Chao Lu, Alexander Wijesinha and Yeong-Tae Song.

## COLLEGE OF LIBERAL ARTS

The College of Liberal Arts (CLA) houses departments and programs that explore what it means to be human, how people construct identities and institutions and how individuals and groups interact over time in communities, in cultures and in nations.

The majors and programs in CLA provide students with opportunities for in-depth learning and experience in a particular field or profession. In addition, the common abilities developed through courses in CLA align well with those identified as desirable for successful careers: critical thinking, effective writing, global awareness, attentiveness to the ideas and beliefs of others and self-direction.

Through its contributions to the Core Curriculum, the college seeks to enhance such abilities in all Towson University students.

HAWKINS HALL

## COLLEGE OF EDUCATION

The College of Education, in close collaboration with public school districts and other agencies, offers a comprehensive slate of acclaimed, performance-based, professional education programs for the initial and advanced preparation of educators.

The college offers one doctoral program, eight master's programs, three certificate of advanced studies programs and seven post-baccalaureate certificate programs. The college also offers courses leading to Maryland State Department of Education Administrator I. The college teaches students to integrate theory with the wisdom of practice and to embrace a learner-centered focus on teaching and learning.

Graduates are well prepared and ready to enter schools as teachers, school leaders and education specialists.

## CANDIDATES FOR DEGREES · COLLEGE OF LIBERAL ARTS

So that you may find your particular graduate in the procession, degree candidates will come forward alphabetically. While the goal is to be accurate, please understand any pronunciation errors are unintentional.

Towson University has made every attempt to include the names of all degree candidates in this program. Students who applied to graduate after the established deadline may not appear in the program. Please note that the list of candidates is tentative only.
