Family & Friends

The Towson University Study Abroad Office encourages parents, friends and family to take an active role in supporting their student’s interest in study abroad. Your encouragement and support can make all the difference in the success of their study abroad experience.

“Living in South Africa for a semester was one of the best decisions I've ever made. I gained a new perspective on my major, was exposed to a completely new culture, made lifelong friends, and grew as an individual. I have become more open-minded, self-aware, and willing to do things out of my comfort zone.”

COURTNEY SOUDERS, ELEMENTARY EDUCATION/SPECIAL EDUCATION MAJOR - SOUTH AFRICA
