Pre-award

OSPR Notification & Approval Routing
To maximize the support the OSPR can provide you, please notify the OSPR at least thirty (30) days prior to the submission deadline. This time period gives both the OSPR and the Principal Investigator (PI) enough time to develop the proposal and secure the necessary Towson University approvals.

Learn more about routing for internal approvals.

Post-award

The Post-award grants financial management team is here to assist in all financial matters relating to expenditures and revenues.

Sponsored agreements are awarded to the university on behalf of the principal investigator (PI). As such, it is important to note that primary responsibility of fiscal oversight and technical completion begins with the PI.
