2+2 Articulation Agreement for Carroll Community College and Towson University

**Associate’s Degree:** A.S. in Biology  
**Bachelor’s Degree:** B.S. in Biology, Organismal Biology and Ecology Concentration  
**Effective Term:** Fall 2019

Section 1: Course Completion Plan for Carroll CC Degree  
This section outlines the courses to take for the Carroll CC general education and program requirements in order to complete both Carroll CC and TU degrees within a total of 4 years and 120 credits. The following tables do not include any nontransferable coursework or program prerequisites.

Table 1: General Education Courses Applied to TU Core Curriculum

**Total general education courses applied to TU Core Curriculum: 34-35 credits**

Students will transfer with a Core Package 3, which indicates that they must only complete the Advanced Writing Seminar (Core 9) and Ethical Perspectives (Core 14) requirements at TU. If a student takes an ethics course as an Arts & Humanities general education course, they will be required to complete another Core Curriculum requirement. The Towson Seminar (Core 1) requirement is waived for all incoming transfer students.

| General Elective       | Any course (if needed for 60 credits)     | 0-2     | Equivalency will vary by course.                        |

Total program requirements applied to the TU degree: 25-26 credits

Total transferred to TU: 60 credits

Students may transfer a maximum of 64 credits. If students do not adhere to the courses outlined above, they are not guaranteed completion of the bachelor’s degree in 2 years.
Section 2: Carroll CC Course Selection Details
This section explains any specific course selections made in section 1 and provides transfer planning guidance specific to this degree plan. Students must follow the course selections outlined in this document. If students do not complete any or all of the courses outlined in this agreement, they will be required to complete outstanding requirements at TU.

COURSE PLANNING
Certain courses at Carroll CC are only offered in the fall or spring term. Students must be mindful of course availability and plan accordingly to complete a course in fall or spring when it is offered. The Carroll CC catalog provides a recommended sequence of courses for students to follow based on course availability.

GENERAL EDUCATION
The program requirement BIOL 102 is counted toward the total of General Education credits completed at Carroll CC. This enables TU to apply a core package and recognize the completion of the associate’s degree’s general education requirements without course-by-course placement in the Core Curriculum.

PROGRAM REQUIREMENTS
For the required math course, students must take either MATH 132 Applied Calculus or MATH 135 Calculus of a Single Variable 1 to satisfy the Organismal Biology and Ecology concentration’s requirement for MATH 273 Calculus I or MATH 211 Calculus for Applications.

LOWER-LEVEL EQUIVALENTS OF UPPER-LEVEL COURSES
A course number beginning with T indicates that it is a lower-level equivalent of an upper-level TU course. CHEM T31, CHEM T32, and BIOL T09 satisfy major requirements but do not count toward the TU degree requirement for 32 upper-level units.
Section 3: Degree Requirements to Be Completed at TU

This section outlines the remaining degree requirements for students transferring into the Organismal Biology and Ecology concentration. This concentration is designed for students seeking advanced studies in botany, zoology, conservation biology or ecology, and/or careers in environmental education, government environmental regulatory agencies, or the private sector. Refer to section 4 for additional major requirements, recommendations, and university-wide degree requirements.

CORE CURRICULUM REQUIREMENTS: 6 UNITS
Core 9 Advanced Writing Seminar
Core 14 Ethical Perspectives

BIOLOGY MAJOR FOUNDATION COURSES: 1 UNIT
BIOL 204 Educational and Career Planning for the Biologist (1 unit)

BIOLOGY MAJOR BREADTH COURSES: 10-20 UNITS
Select one of the following for 3-8 units:
- BIOL 205 General Botany & BIOL 207 General Zoology (8 units)
- BIOL 208 Biodiversity (3 units)

Select one of the following for 4 units:
- BIOL 405 Molecular Ecology, Evolution, and Conservation
- BIOL 408 Cell Biology
- BIOL 409 Molecular Biology

Select one of the following for 3-8 units:
- BIOL 221 & 221L Human Anatomy & Physiology I Lecture & Lab and BIOL 222 &222L Human Anatomy & Physiology II Lecture & Lab (8 units)
- BIOL 325 Animal Physiology (4 units)
- BIOL 436 Plant Physiology (3 units)

PRINCIPLES OF ECOLOGY ELECTIVE: 4 UNITS
Select one of the following for 4 units:
- BIOL 310 Conservation Biology
- BIOL 402 General Ecology
- BIOL 405 Limnology
- BIOL 435 Plant Ecology

DIVERSITY ELECTIVE: 3-4 UNITS
Select one of the following for 3-4 units:
- BIOL 334 Humans, Science, and the Chesapeake Bay (3 units)
- BIOL 347 Marine Biology (3 units)
- BIOL 353 Invert Zoology (4 units)
- BIOL 371 Animal Behavior (4 units)
- BIOL 413 Evolution (3 units)
- BIOL 432 Vascular Plant Taxonomy (4 units)
- BIOL 444 Wildlife Management (3 units)
- BIOL 446 Tropical Ecology and Conservation (3 units)
- BIOL 447 Tropical Field Ecology (4 units)
- BIOL 452 Wetland Ecology (4 units)
- BIOL 455 Fish Biology (4 units)
- BIOL 456 Ornithology (4 units)
- BIOL 458 Mammalogy (4 units)
- BIOL 461 Entomology (4 units)
- BIOL 467 Herpetology (4 units)
- GEOG 221 Introduction to Geospatial Technology (3 units)

ORGANISIMAL ELECTIVES: 6-12 UNITS
Take two courses (6-8 units) if BIOL 205 & 207 were taken for the breadth requirement; take three courses (9-12 units) if BIOL 208 was taken for the breadth requirement. Select from any of the following options:
- Any course from the Principles of Ecology electives list
- Any course from the Diversity electives list
- BIOL 491 Elective in Independent Research
- PHYS 212 General Physics II Non Calculus-Based or PHYS 242 General Physics II Calculus-Based (depending on which course is taken in the ancillary requirement for physics)

BIOLOGY MAJOR ANCILLARY COURSES: 8 UNITS
Physics – Select one of the following for 4 units:
- PHYS 211 General Physics I Non Calculus-Based
- PHYS 241 General Physics I Calculus-Based

Statistics – Select one of the following for 4 units:
- MATH 237 Elementary Biostatistics
- PSYC 212 Behavioral Statistics

GENERAL ELECTIVES: 9-19 UNITS
The total number of elective units required will be determined by the total units completed within the major. Elective credit can be satisfied by additional major electives or courses of personal interest. Students may also consider adding a minor if they have room for 18-24 units of coursework.
Section 4: Additional Requirements & Recommendations for TU Degree Completion

ADDITIONAL BIOLOGY MAJOR REQUIREMENTS AND RECOMMENDATIONS:

- Students in this concentration are encouraged to take BIOL 205 and BIOL 207 as their breadth courses.
- BIOL 484 Seminar in Ecology, Evolution, Conservation, and Behavior (1 unit) is recommended as a general elective for this concentration.
- A research experience or internship (e.g. BIOL 491, 493, or 499) is strongly encouraged for students in this concentration.
- All Biology majors must complete a minimum of 19 units of biology major courses as TU credit. At least 10 of these units must be at the upper-level. This does not include ancillary coursework outside of the biology subject.

BACHELOR’S DEGREE REQUIREMENTS FOR ALL STUDENTS:

- A C (2.0) or higher is required in all major courses and prerequisites.
- A cumulative grade point average (GPA) of 2.0 is required.
- 32 units of the bachelor’s degree must be completed at the upper level (courses numbered 300 or above).
