Introduction

The FY 2020 Operating Budget and Plan for Towson University (TU) aims to help the campus community understand the university’s financial environment and the factors that contribute to it. The book presents a high-level picture of the university’s internal budget during fiscal year 2020 (academic/calendar year 2019-2020). Key financial information is broken down by revenue source. Unrestricted sources are listed first and are divided into three categories—state-assisted, self-support and auxiliary enterprises. Restricted sources are next and are primarily composed of government-sponsored research grants and contracts. The appendix offers information on TU budget trends as well as historical context for budget decisions, including TU/USM enrollment levels and TU employment levels. A glossary of terms is provided for reference.

Towson University’s budget is managed by the university administration with input from the University Budget Committee (UBC) and Resource Planning and Advisory Committee (RPAC). The budget adheres to directives from the governor, the Maryland General Assembly and the University System of Maryland (USM).
Profile

Towson University has been recognized as one of the region’s best and most diverse public universities, offering world-class bachelor’s, master’s and doctoral degree programs while maintaining moderate tuition prices. Despite receiving the lowest funding per student in the USM, the university continues to achieve graduation rates that are among the highest in the USM. Using careful budgeting and planning, TU produces graduates for 44 percent below the average cost of USM campuses—and those graduates contribute to Maryland’s workforce. Approximately 84 percent of incoming first-time, full-time freshman live on-campus. Approximately 86 percent of TU students are from Maryland, and 86 percent of students stay in Maryland to live and work after graduation.

TU is committed to providing a quality, affordable education to Maryland’s students. Programs on our home campus, instruction at TU in Northeastern Maryland and interdisciplinary partnerships with public and private organizations throughout Baltimore and the state help prepare more than 5,700 annual graduates for lifelong employment and success. Towson University is proud to be Baltimore’s largest university, Maryland’s largest producer of educators and a state leader in undergraduate health professions.
University Budget Summaries

FY 2020 University Operating Revenue Overview

Towson University’s internal operating revenue is comprised of two fund groups:

1. **Unrestricted revenues** are resources provided to the institution with no restrictions on their use. These resources are separated into three categories:
   
a. *State-assisted* revenue includes state appropriations, fall/spring tuition and fees, summer/miniester overhead, indirect cost recovery from auxiliary enterprises and self-support areas, and other unrestricted funds.

b. *Self-support* revenue includes sales and services of educational activities. This could include goods and services that may be sold to students, faculty, staff and the general public.

c. *Auxiliary enterprises* revenue includes auxiliary student fees and self-generated revenue from auxiliary areas such as housing, dining, the University Store and athletics.

2. **Restricted revenues** encompass government-sponsored research grants and contracts, non-government grants, certain endowment and gift income, and student aid from external sources.

### University Revenue

Total: $540,727,320

- **State-Assisted**: $328,870,017 (60.8%)
- **Auxiliary Enterprises**: $144,744,812 (26.8%)
- **Self-Support**: $17,003,550 (3.1%)
- **Restricted**: $50,108,941 (9.3%)
FY 2020 University Expenditure Overview

The “other operating” cost category includes travel, communications, motor vehicles, contractual services, fixed charges, land and structures, and the fund balance requirement. The difference between the total university revenue and total university expenditures is the required fund balance contribution of $2.8 million.

**Expenditures by Category**

## Budget Notes

- **2** The decrease in self-generated revenue from FY 2019 to FY 2020 is the result of a change in the way the University Budget Office recognizes departmental chargebacks for telecommunications services. Previously these chargebacks were budgeted as revenue and updated to expenses in a revised budget. Effective FY 2020, the chargebacks are included in the original budget as contra-expenses.

- **+** The difference between the total self-support revenue and total self-support expenditures is the required fund balance contribution of $58,362.

Restricted Budget

The university's restricted resources are comprised of government-sponsored research grants and contracts, non-government grants, certain endowment and gift income, and student aid from external sources.

Large Grant and Contract Awards

The university receives hundreds of grants and contracts each fiscal year. The awards listed below represent some of the major grants and contracts that will be active in FY 2020. Please note that the funds for many of the grants and contracts are awarded over an extended period of time, thus the total award amount will be greater than the restricted award total for FY 2020 alone.

**Bridges to the Baccalaureate: Facilitating Seamless Transitions from Community College to TU**
Award Amount: $509,747; anticipated five-year total is $1,342,771
Award Organization: National Institutes of Health
Responsible Department: Biological Sciences; Michelle Snyder & Elana Ehrlich

**CyberCorps: Scholarship for Service at TU**
Award Amount: $2,543,752; anticipated four-year total is $3,972,413

Capital Budget Projects

A capital project is generally defined by the USM as any design or construction project that exceeds a total project cost of $1 million. Capital projects are usually grouped into two categories: state-funded capital projects and system-funded capital projects. Descriptions of ongoing capital projects are provided on the following pages. The projects correspond with the university’s master plan, which is available on the Facilities Management website at towson.edu/facilities.

State-Funded Capital Projects

State-funded capital projects are typically financed with bond funds allocated from the state of Maryland budget to individual institutions. Institutions are not required to reimburse the state for these bonds. Projects eligible for funding from the state include both academic and academic support buildings (such as administrative buildings, infrastructure and utility improvements). Towson University’s ongoing state-funded capital projects, as requested by TU and supported by the Board of Regents, are listed in chronological order below.

<table>

<tr>
<th>New Science Complex</th>

</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

The new Science Complex (316,000 GSF/184,730 NASF) will allow for a high level of integration between teaching and research spaces and provide adaptability to allow for future student learning and research grant opportunities. The project will maximize the goals of science on display and celebrating research through a highly visible location at the historic front of the university’s campus, and will facilitate collaboration by aligning all of the departments and programs of the Fisher College of Science and Mathematics into two adjacent buildings. The new facility will house Biology, Chemistry, Physics, Astronomy and Geosciences, Environmental Sciences, Molecular Biology, Biochemistry and Bio-Informatics (MB3), and Science Education departments and programs.

<table>
<thead>
<tr>
<th>College of Health Professions Building</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Budget:</td>
</tr>
<tr>
<td>Size:</td>
</tr>
</tbody>
</table>

A new 228,993 GSF/130,853 NASF building for the College of Health Professions will consolidate the college’s departments into one facility. The building will house academic undergraduate and graduate programs for the Nursing, Occupational Therapy, Kinesiology, Health Science, and Speech-Language Pathology & Audiology departments. The project will address existing facility/space deficiencies as well as projected growth in both undergraduate and graduate curriculums in response to the current and projected state and regional workforce shortage. Maryland’s 22,000 unfilled health professions positions result in approximately $1.6 billion in unrealized wages and $170 million in unrealized state and local tax revenues.
System-Funded Capital Projects

System-funded capital projects are financed through the sale of bonds by the USM. The debt service of these bonds is typically a 20-year amortization period paid for by the institution primarily through auxiliary revenue sources, including student fees. Projects eligible for funding through this financing method include dining halls, student unions, parking facilities, recreation facilities and residence hall renovations. Towson University’s ongoing system-funded capital projects are listed below.

**University Union Addition and Renovation**

- **Total Budget:** $108.8 million
- **Size:** 80,000 GSF new; 168,203 renovated
- **Project schedule:** Jan. 2017 – July 2021

This project involves an addition (80,000 GSF/45,000 NASF) and complete renovation of the existing building (168,203 GSF/109,044 NASF). The University Union is the most frequently-used building on TU’s campus. There has been a shortage of space in the facility for years, as it was originally designed for an enrollment of 10,000 students. Office and meeting space for student organizations is the most critical space deficiency along with lounge and study space. At present, many student organizations are without office or support space and are dispersed to inappropriate facilities throughout the campus. Improved merchandising and food service facilities are also needed.

**Glen Dining Renovation**

- **Total Budget:** $8.8 million (university-funded)
- **Size:** 31,956 GSF
- **Project schedule:** Aug. 2017 – May 2019

This project is for the comprehensive renovation of Glen Dining Hall, which serves approximately 200,000 meals annually. The building needs updated infrastructure to prevent safety issues and accommodate increased demand during the renovation of the University Union. The Glen Dining Hall renovation includes repairs to the exterior building envelope, lighting, interior finishes, interior reconfiguration, electrical distribution panels, hot water tanks, rooftop HVAC units, trash compactors and emergency generator.

**Glen Towers Renovation**

- **Total Budget:** $58.1 million (university-funded)
- **Size:** Mechanical & structural upgrades to all four buildings
- **Project schedule:** N/A; Sept. 2019 – Aug. 2024

This project involves the replacement, repair and renovation of exterior glazing, structural concrete systems, and exterior concrete walls, respectively. The multi-phase project will renovate HVAC and supporting infrastructure as well as the surrounding exterior plaza.

Glossary

Academic Support:
Includes activities conducted to provide support services to the institution’s primary missions: instruction, research and public service. It includes the retention, preservation and display of educational materials, such as libraries; the provision of services that directly assist the academic functions of the institution; media, such as audio-visual services, and technology, such as computing support, academic administration (including academic deans but not chairpersons) and personnel development providing administration support and management direction to the three primary missions.

AIT:
Applied Information Technology

Appropriation:
An expenditure authorization with specific limitations as to amount, purpose and time; a formal advance approval of expenditure from designated resources available or estimated to be available.

Auxiliary Enterprises:
Activities within the university that furnish goods or services to students, faculty or staff, and charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. Auxiliary Enterprises are essentially self-supporting activities. The general public may be served incidentally by Auxiliary Enterprises.

Capital Budget:
Generally covers expenditures for the construction or renovation of major facilities.

CIAT:
The Center for Instructional Advancement and Technology (CIAT) supports excellence in teaching and learning by assisting Towson University faculty through instructional design consultations and training; graphic and illustration design; and videography services for the development of curriculum and course materials; and the implementation of teaching and learning strategies.

COLA:
Cost of Living Adjustments

Contingent Salaries, Wages and Fringe Benefits:
Employees not in a state PIN (Position Identification Number) and hired on a contractual or temporary basis. All expenses associated with the temporary employee’s income are included in this grouping.

Current Funds:
Economic resources, expendable and set aside by the institution for carrying out the primary purposes of the institution, to be expended in the near term and used for operating purposes.

DBM:
Department of Budget and Management

Education and General Self-Support:
See “Sales and Services of Educational Activities”

Education and General State-Assisted:
Education and General (E&G) expenses are recorded for all expenses that are not for Auxiliary Enterprises. They are normally categorized as instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, and scholarships and fellowships.

Endowment Funds:
Funds, the principle of which a donor or other outside agency has stipulated, as a condition of the gift, remain intact (nonexpendable) in perpetuity, and that only the income from the investment of the fund may be expended.

Endowment Income:
Yield, usually in the form of interest or dividends, which occurs as a result of investing the principal of an endowment fund. Capital gains and losses are not part of this.

Fiscal Year:
The period used by the state for budgeting and account purposes. It begins July 1 and runs through June 30 the following calendar year.

Foundation:
Towson University Foundation, Inc. was established in 1970 as a 501 (c) (3) non-profit corporation in order to manage gifts and other funds received for the benefit of TU. The Foundation is organized to receive, hold, invest, manage, use, dispose of and administer property of all kinds whether given absolutely, in trust, by way of agency or otherwise for the benefit and promotion of TU or for education and support activities.
**Full-Time Equivalent (FTE):**
A means for expressing part-time students or faculty as a full-time unit. The formula is generally based on credit hours. Example: An institution may define full-time as being twelve credit hours; a student taking three credit hours would then be equal to .25 FTE.

**Fund Balance:**
The difference between actual revenue and actual expenditures.

**Furlough:**
Furlough is the term used when employees are placed in a temporary non-duty, non-pay status for required budgetary reasons.

**Grants and Contracts:**
Revenues from government agencies (federal, state or local) received or made available from grants, contracts and cooperative agreements that are not considered contributions.

**Gross Square Feet (GSF):**
Unit of measurement of a building from outside its exterior walls. This is the standard used throughout the construction industry.

**Indirect Cost Recovery (IDC):**
An assessment charged to non-state and auxiliary enterprises activities to recover the cost of providing services that are not a direct-billed service (e.g., payroll processing).

**Institutional Support:**
Includes expenses for central executive-level activities concerned with management and long-range planning for the entire institution. It includes executive management, fiscal operations, general administration and logistical services, public relations and development, and administrative computing support.

**Instruction:**
Includes activities that are part of the institution’s instructional program. Expenses for credit and noncredit courses; remedial and tutorial instruction, and regular, special, and extension sessions are included.

**Investment Income:**
Interest revenue earned on cash balances as allocated by the Comptroller of the State of Maryland.

**LIMS:**
Library Information Management System

**Mandatory Transfers:**
Transfers arising out of (1) binding legal agreements related to the financing of the educational plant such as amount for debt retirement, interest and required provisions for renewals and replacement of plant, not financed from other sources, and (2) grant agreements with agencies of the federal government, donors and other organizations to match gifts and grants to loan funds.

**Miscellaneous Sources:**
All sources of current funds revenue not included in other classifications.

**Non-Mandatory Transfers:**
Transfers that serve a variety of objectives, such as moving monies generated through auxiliary enterprises to scholarship funds for use in providing scholarships or to a capital outlay group for use in providing project funding.

**OIIE:**
Office of Inclusion and Institutional Equity

**Operating Budget:**
Generally includes all of the regular unrestricted income available to the institution plus those restricted funds that are earmarked for instructional activities and department support. Activities included in the operating budget are the basic expenses of departments, schools, and colleges, including personnel and day-to-day operating costs; student services; libraries; administration; campus operations and maintenance; development; and the unrestricted portion of endowment income, gifts and student aid.

**Operation and Maintenance of Physical Plant:**
Activities related to the operation and maintenance of the physical plant, including all operations established to provide services and maintenance related to campus grounds and facilities, and utilities and property insurance.

**Permanent Salaries, Wages and Fringe Benefits:**
Employees in a state authorized position (SAP) and hired on a permanent basis. All expenses associated with the permanent employee’s income are included in this grouping.

**Private Gifts and Grants:**
Revenues generated from individuals and non-government sources. Includes revenue received from private donors for which no legal consideration is involved.

**Public Service:**
Includes activities established primarily to provide non-instructional services beneficial to individuals and groups external to the institution. These activities include community service programs and cooperative extension services. Included in this category are conferences, institutes, general advisory services, reference bureaus, radio and television, consulting, and similar non-instructional services to particular sectors of the community.

**Quasi-Endowment Funds:**
Funds, functioning as an endowment, that are unrestricted resources. The decision to invest otherwise spendable resources is made by the institution’s governing board or management. These internal designations can be reversed.
Research:
Includes activities specifically organized to produce research, whether commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution. Included in this category are expenses for individual and/or project research as well as that of institutes and research centers.

Restricted Budget:
Encompass government-sponsored research grants and contracts, nongovernment grants, certain endowment and gift income, and student aid from external sources.

Restricted Funds:
Funds limited to a specific use by outside agencies or persons, as distinguished from funds over which the institution has complete control and freedom to use. Restricted funds have an externally established limitation or stipulation placed on their use.

Sales and Service of Auxiliary Enterprises:
See “Auxiliary Enterprises.”

Sales and Services of Educational Activities:
Revenues that are related incidentally to the conduct of instruction, research, and public service and revenues of activities that exist to provide instructional and laboratory experience for students and that incidentally create goods and services that may be sold to students, faculty, staff and the general public.

Scholarships and Fellowships:
Expenses for student awards, i.e. scholarships, tuition remission or graduate assistantships.

SPAR:
The Division of Strategic Partnerships & Applied Research

State Appropriations:
Unrestricted revenue received for current operations from, or made available to the institution by, legislative acts or the local taxing authority (the state of Maryland). This category does not include government grants and contracts. Also referred to as general funds.

State Authorized Position (SAP):
Regular employee hired on a permanent basis. Formerly known as a position identification number, or PIN.

State Funded Capital Projects:
State funded capital projects are those financed from general funds allocated from the state of Maryland budget to individual institutions. These funds are not required to be repaid to the state by the university. Projects eligible for funding from the state include academic and academic support buildings, including administration buildings, infrastructure and utility improvements.

Student Services:
Includes activities for offices of admissions and enrollment services and activities with the primary purpose of contributing to students’ emotional and physical well-being and intellectual, cultural and social development outside the context of the formal instructional program. Included in this category are expenses for student activities, cultural events, intramural athletics, student organizations, counseling and career guidance, student aid administration, and offices of enrollment management and student health services.

System Funded Capital Projects:
System funded capital projects are financed through the sale of auxiliary bonds by USM. The debt service of these bonds, typically a 20-year amortization period, is paid for by the institution through auxiliary revenue sources, including student fees. Projects that are eligible for funding through this financing method include dining halls, student unions, recreation facilities, parking facilities and the renovation of residence halls.

TLN:
Towson Learning Network

Tuition and Fees:
Includes all tuition and fees assessed (net of refunds and discounts) for educational purposes.

Unrestricted Funds:
Resources provided to the institution with no restrictions on their use.

Vacant Position Attrition Earnings:
The Executive and Legislative Branches of the Government require agencies to budget for less than 100 percent employment levels. Generally, the expectation of vacant positions is between 2 percent and 4 percent.
