A CLOSER LOOK

TU students serve as leaders who empower Baltimore City and Baltimore County students in post-secondary education through a mentorship and facilitation of workshops, which are designed to fit the unique needs of the school.

The Higher Education Initiative serves to encourage students in grades K-12 to be successful in all facets of life post-high school. It is aimed to empower students to pursue their goals despite adversity. The initiative includes workshops that inform students of resources and tools that will assist them in leading a life of leadership, commitment and integrity.

SERVICES/SOLUTIONS/OUTCOMES

• Provide resources and opportunities for students to receive additional support in preparation for their post-graduation career
• Serve as a mentor for students and follow them throughout their high school career to ensure they are meeting the needs and requirements to further their education
• Ensure that all students, despite their challenges are given the opportunity to select their own pathway in post-secondary education, and will receive the support and resources necessary
