

Project Management Professional (PMP®) Preparation Course

48 Hours

Course Description

The (PMP)® certification is globally recognized as the preeminent project management professional credential. This program also provides training on AGILE, the premier software tool used by industry experts to manage real-world projects. Towson University's faculty developed and recently improved training course provides the training, materials, and mentorship necessary to prepare for the PMP®, CAPM®, and AGILE certification exams. Course completion meets the formal educational requirement students need to sit for these exams.

Project Management Professional (PMP)® and CAPM®

The Project Management Professional (PMP)® or Certified Associate in Project Management (CAPM)® certifications prepare students for careers as a Project Manager, Project Associate, Project Lead or Team Lead. It covers the fields of Information Technology, Health Care, Construction, Engineering, Business and Administrative Operations. Our Project Management Professional Course introduces learners to best practices as set forth in the Project Management Institute. Upon enrollment, each student will receive their own copy of the [PMBOK® Guide – 6th Edition \(2017\)](#).
