Accounting & Bookkeeping Specialist

100 Hours

Course Description
In as little as nine weeks, the Accounting and Bookkeeping Continuing Education program will give you the skills that you need to qualify for the following types of positions:

- Bookkeeper
- Payroll Clerk
- Accounts Receivable Clerk
- Office Assistant
- Accounts Payable Clerk
- Accounting Assistant
- Billing Clerk
- Hotel Night Auditor

Students will begin by learning the complete accounting cycle including asset, liability, capital and earnings accounts, double-entry bookkeeping, and the various accounting journals and ledgers. Students will also learn how to record transactions, calculate payroll, and complete the general ledger, trial balance and financial statements.

Next, students will learn how to handle other important issues and accounting problems of small to mid-size organizations. Other issues addressed will include year-end procedures, accruals and deferrals, the cash basis of accounting, transactions between an organization and its owners, and procedures for creating an accounting system. Students will also learn how to handle the specific accounting requirements of contractors and nonprofit organizations. Many realistic exercises, problems, and simulations will be completed both in class and as homework assignments to reinforce the students’ knowledge and skills.

In the hands-on computer training sessions, students will learn how to use Microsoft Excel, which is required of nearly all accounting clerks and bookkeepers. They will also learn how to use QuickBooks, the most popular accounting software program for small and mid-sized organizations. In addition, students will have the option to learn other Microsoft Office and accounting software programs (ex. Peachtree; Microsoft Great Plains) and will have the opportunity to reinforce their skills in general business math and keyboarding to ensure that they can tackle a wide range of business assignments efficiently and accurately.

The instructor for this course is Dr. Andrew Schiff, a highly-rated Professor of Accounting at Towson University. He has been offering this continuing education program in a variety of formats for nearly 15 years. Moreover, he has been a Certified Public Accountant for over 30 years.
