Online PMP: Mastering Project Management with PMP® Prep Course

150 Hours / 6 Months

Course Description

The (PMP)® certification is globally recognized as the preeminent project management professional credential. The CAPM® is a certificate for those who have less experience in project management but need to prove their knowledge. Towson University is a registered education provider for the Project Management Institute that is the parent organization of (PMP)® and other national certifications. The content for this online course is provided by PMI Talent Triangle which ensures a detailed exploration of key project management topics and concepts that you will explore on your own time. Course completion meets the formal educational requirement students need to sit for these exams.

Project Management Professional (PMP)® and CAPM®

Prerequisites

All project management experience must have been accrued within the last eight consecutive years prior to your application submission.
