BUSINESS SYSTEMS & PROCESSES B.S. + SUPPLY CHAIN MANAGEMENT M.S.

Utilize leading edge software to integrate processes, enhance business intelligence, and realize strategic solutions through analysis for any supply chain or organization.

PROGRAM HIGHLIGHTS

ACCELERATED PROGRAM
This individualized accelerated program allows undergraduates to earn their Bachelor of Science in Business Systems and Processes and Master of Science in Supply Chain Management in as little as 5 years!

INDIVIDUALIZED PLAN
Small classes taught by experienced faculty give you opportunities to interact with experts who have extensive professional and senior-level experience in a range of analysis-related positions.

HIGH DEMAND
Stand apart with the knowledge and skills in SAP to implement logistics, distribution, and procurement when applying for jobs.

ELIGIBILITY
Admitted Business Systems and Processes juniors (60+ credits) with a GPA of 3.0 and above are eligible to apply. Take up to three master’s level courses during undergraduate study.

CAREER OUTLOOK
You’ll graduate with the skills you need to be successful as a:
- SAP Functional Analyst
- SAP Transportation Manager
- SAP Procurement Analyst
- Supply Chain Planning Specialist

STEM CERTIFIED
This designation is formal recognition of the emphasis on statistics and analytics. It proves our curriculum is relevant and enabling students to be prepared for careers in supply chain and the service economy.

EXPERT
Our plugged-in faculty members are distinguished researchers and industry professionals who will give advice, offer encouragement, and connect you to opportunities.

SAP RECOGNITION AWARD
Students earn their SAP Recognition Award from SAP University Alliance signifying hands-on-experience using the software.

WHAT YOU’LL LEARN

Become a highly trained individual with technical and business know-how. Be trained in the market-leading SAP enterprise resource planning (ERP) software, manage integrated business processes, and make decisions that transform business environments and practices.

PROGRAM STRUCTURE

As part of the individualized program, students must first complete requirements for B.S. Business Systems and Processes (BSAP) degree. While satisfying those requirements, students may exchange up to 9 credits (3 courses) within the BSAP degree for the graduate equivalent course. With a grade of B or better in those graduate courses, students earn both undergraduate and graduate credits. During their last semester of their senior year, students apply for the M.S. Supply Chain Management program. Upon acceptance, students then complete an additional 7 courses to finish their M.S. degree (30 credits).

COURSES TO EXCHANGE
- EBTM 610 Operations Management for EBTM 365 Operations Management
- EBTM 740 Customer Relationship Management for EBTM 340 Applied CRM Systems
- EBTM 730 Business Process Management for BSAP elective

REQUIRED SCM COURSES

(30 UNITS)
- Introduction to Supply Chain Management
- Procurement and Sourcing
- Operations Management *
- Logistics and Distribution
- Supply Chain Analytics
- Introduction to Project Management
- Capstone Project
- Three electives

REQUIRED BSAP COURSES

- Introduction to ERP Systems
- Enterprise Resource Systems Configuration
- Applied CRM Systems
- ERP Simulation and Applications
- Applied Business Intelligence
- One elective

ADMISSION PROCESS

1. Students can apply by filling out the Accelerated B.S./M.S. Application Form and submitting it to the Business Analytics and Technology Management Department in Stephens Hall, Room 301 or by email to supplychain@towson.edu.

2. During their senior year, students must complete an online graduate application with the University Admissions Office. Admission to the graduate program is based on meeting the overall undergraduate GPA requirements and earning a "B" or better in each graduate course taken as part of the accelerated program.
