Students with a Business Administration minor can now combine their specialized knowledge with leading edge software and skills to integrate business fundamentals, enhance business intelligence, and realize strategic solutions to support supply chain organizations.

PROGRAM HIGHLIGHTS

ACCELERATED PROGRAM
This individualized accelerated program allows undergraduates to earn a minor in Business Administration and Master of Science in Supply Chain Management in as little as 5 years!

COMBINE KNOWLEDGE & SKILLS
Combine the knowledge and skills from various fields with Supply Chain Management. Related majors include: Sports Management, Healthcare Management, Information Systems, Mass Communications, International Studies, and more!

ELIGIBILITY
Students who have declared a minor in Business Administration (BUAD) with a cumulative GPA of 3.0 and above are eligible to apply. Take up to three master's level courses during undergraduate study to count for both undergraduate and graduate degrees!

CAREER OUTLOOK
You’ll graduate with the skills you need to be successful as a:
- Medical Logistics Specialist
- Project Manager and Business Analyst
- Operation Manager
- International Logistics Manager

STEM CERTIFIED
This designation is formal recognition of the emphasis on statistics and analytics. It proves our curriculum is relevant and enables students to be prepared for careers in supply chain and the service economy.

EXPERT
Our plugged-in faculty members are distinguished researchers and industry professionals who will give advice, offer encouragement, and connect you to opportunities.

HIGH DEMAND
Stand apart when applying for jobs. You will have the know-how to implement logistics, distribution, and procurement for your employer.

WHAT YOU’LL LEARN

Through rigorous coursework, you’ll gain a conceptual and pragmatic understanding of general and specialized business administration and supply chain management areas applicable across industries and fields.

PROGRAM STRUCTURE

The Master of Science degree consists of ten courses, totaling 30 credits. Students take six required courses, three electives, and complete a capstone supply chain project. Admitted undergraduates will establish an individualized plan with the Program Director to customize their business administration minor courses with supply chain management courses.

REQUIRED SCM COURSES

<table>
<thead>
<tr>
<th>3 CREDITS EACH</th>
<th>21 CREDITS TOTAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduction to Supply Chain Management</td>
<td></td>
</tr>
<tr>
<td>Procurement and Sourcing</td>
<td></td>

<td>Customer Relationship Management *</td>
<td></td>
</tr>
<tr>
<td>Special Topics in SCM</td>
<td></td>
</tr>
</tbody>
</table>

*Recommended, but not required, courses to exchange during undergraduate study.

The Capstone Project offers a practical, real-world problem-solving experience.

ADMISSION PROCESS

1. Students can apply by filling out the Accelerated B.S./M.S. Application Form and submitting it to the Business Analytics and Technology Management Department in Stephens Hall, Room 301 or by email to supplychain@towson.edu.

2. During their senior year, students must complete an online graduate application with the University Admissions Office. Admission to the graduate program is based on meeting the overall undergraduate GPA requirements and earning a "B" or better in each graduate course taken as part of the combined program.
