AGENCY GOALS & OBJECTIVES:

The mission of World Relief is to empower the local church to serve the most vulnerable. As a part of its vision statement, World Relief envisions the most vulnerable people transformed economically, socially, and spiritually in community with the local church.

World Relief partners with churches in many different areas to carry out this mission and vision: disaster response, child development, maternal and child health, HIV/AIDS, agricultural development, immigrant legal services, micro-finance, anti-trafficking, and refugee resettlement.
DEPARTMENT GOALS AND OBJECTIVES:

As the world’s second largest and fastest growing criminal industry, human trafficking has led to the enslavement of nearly 27 million people around the world. The U.S. Department of State estimates that 14,500 – 17,500 people are trafficked into the United States each year.

In response to this stark reality, World Relief helped launch the Faith Alliance Against Slavery and Trafficking (FAAST), a group of Christian organizations which collaborate to design programs, curriculum and training to prevent trafficking and help survivors to rebuild their lives.

Since 2004, World Relief has partnered with local law enforcement to rescue and provide comprehensive services to survivors of human trafficking in the United States. World Relief trains thousands of community members how to identify victims of trafficking every year.
