**\*\*Final course approvals anticipated during the fall 2021 semester.**

Towson University requires a minimum of 120 units for graduation. The requirements for the Nursing major include 58 units of NURS courses, 41 units of prerequisite courses and 21 units of core curriculum and/or elective courses. It is critical for transfer students to review their University transfer credit evaluation to ensure 120 units are included in their plan of study to meet graduation requirements.
