

Medicaid Home and Community-Based Services Waiver for Children with Autism Spectrum Disorder Fact Sheet

Purpose

- ❖ The Autism Waiver, through Medical Assistance, will allow eligible children with Autism Spectrum Disorder to receive specific waiver services to support them in their homes and communities.

Background

- ❖ House Bill 99 was adopted during the 1998 session of the General Assembly. The bill required the Maryland Department of Health and Mental Hygiene (DHMH) to apply to the Center for Medicare and Medicaid Services (CMS), formerly the Health Care Financing Administration (HCFA), for a Home and Community-Based Services Waiver that would target services to children with autism. In August 1998, DHMH applied for a Section 1915(c) Home and Community-Based Service Waiver that would allow children with autism certified as needing services from an Intermediate Care Facility for the People with an Intellectual Disability (ICF-ID) to receive the waiver services in their homes and communities.
- ❖ On September 1, 2000 DHMH received confirmation from CMS that the Home and Community-Based Services Waiver for Children with Autism was approved for 250 children the first year, 300 children the second year, and 350 children the third year.
- ❖ On February 7, 2002 DHMH received approval from CMS to increase the number of children to be served to a total of 500 the first year. The approved number of children to be served in the waiver was increased to 750 the second year and to 900 the third year.
- ❖ CMS approved the waiver for a five-year period, October 1, 2004-September 30, 2009. Changes requested by CMS include the elimination of regular and intensive day habilitation and more specific provider criteria for residential habilitation. Changes requested by DHMH and MSDE included therapeutic integration as an hourly service (minimum 2 hours), a maximum of 25 hours a week of Intensive Individual Support Services (IISS), and a requirement for an Individualized Treatment Plan for each child receiving IISS. Additional changes include improving provider qualifications to expand and enhance the professionals that are qualified to provide Family Training and supervise IISS and Respite technicians providing direct services.
- ❖ Family Training and supervise IISS and Respite technicians providing direct services. On July 1, 2009 CMS approved the waiver for another 5-year cycle. Changes included adding an additional service, Adult Life Planning, and deleting Supported Employment.

Target Population

- ❖ Children who are diagnosed with Autism Spectrum Disorder, defined in the DSM-IV as 299.00 & 299.80.
- ❖ Children who are ages 1 to 3 years old with an Individualized Family Service Plan (IFSP).
- ❖ Children who are ages 3 through the end of the school year that the child turns 21 years old with an Individualized Education Program (IEP) and receive more than 12 hours per week of special education and related services.
- ❖ Children who meet an institutional level of care (Intermediate Care Facility for the People with an Intellectual Disability) and can be served in the community through waiver services.
- ❖ Children who are currently enrolled in another Medicaid Home and Community-Based Services Waiver and are determined eligible for the Autism Waiver must choose the Waiver program which best meets their needs.
- ❖ Children who are enrolled in the Autism Waiver must utilize at least one waiver service a month.

Services to Support the Child in the Community

- ◆ Respite Care
- ◆ Environmental Accessibility Adaptations
- ◆ Family Training
- ◆ Service Coordination
- ◆ Adult Life Planning
- ◆ Residential Habilitation
- ◆ Intensive Individual Support Services
- ◆ Therapeutic Integration

Benefits

- ❖ Waiver participants will be eligible for additional services such as respite care, environmental modifications to their home, and family training.
- ❖ The waiver child may use their Medical Assistance card to access additional Medicaid-covered services.
- ❖ Specialized programs will be able to bill Medicaid for the waiver services that they are approved to provide.
- ❖ Additional children with autism will become Medicaid eligible.

Administration

- ❖ Financial eligibility will be based upon the child's income and resources. The Department of Health and Mental Hygiene determines financial and certain technical eligibility requirements.
- ❖ The Maryland State Department of Education (MSDE), through the early intervention programs and local school systems, is responsible for operating the waiver on a daily basis.
- ❖ The waiver is currently full. Parents or guardians who are interested should contact the Autism Waiver Registry at 866-417-3480. Children who apply to the waiver are referred from the Registry to MSDE in chronological order, when there are waiver vacancies.
- ❖ The appeals process for this waiver is through a request for a Fair Hearing under the Maryland State Medical Assistance Program/DHMH.
- ❖ **Waiver Effective Date- July 1, 2001**

**NOTE: All Waiver Service providers must be approved Medicaid providers.
