

# CHESAPEAKE CONVERSATIONS

## Professional Learning Workshop for Maryland Teachers of Grades 3-6

Towson University's [Center for STEM Excellence](#) is excited to announce a new online professional development workshop focusing on Chesapeake Bay science and Meaningful Watershed Educational Experiences (MWEEs) for teachers of grades 3-6. *Chesapeake Conversations* will be completely online, and teachers will have the option to complete the course for CPD credit (for more information on earning credits, [click here](#)).

During this workshop, participants will learn engaging ways to teach about the Chesapeake Bay both during distance learning and upon return to the classroom. Workshop goals include:

- Learn how to facilitate a variety of lessons on Chesapeake Bay topics in a virtual format
- Learn strategies for investigating local environmental issues and facilitating environmental action projects
- Network and share experiences with fellow teachers interested in teaching about the Chesapeake Bay

**Where:** Chesapeake Conversations will be held completely online. We will use Zoom for each monthly workshop sessions.

**When:** The workshop will consist of a series of hour-long sessions. Participants can choose to come to as many or as few sessions as they would like. For those seeking CPD credit, more information on asynchronous assignments will be provided at each of the sessions.

### Chesapeake Conversations Workshop Dates

January	28 <sup>th</sup>	4:30 – 5:30 pm (1 hour)
February	11 <sup>th</sup>	
March	11 <sup>th</sup>
