Service-Learning-Honors Agreement

In order to get Honors Elective/Experiential and Advanced Learning credit for a Service-Learning course, the student and professor must review and sign this form. The student must submit this form with a copy of the course syllabus to the Honors College Faculty Director by the end of that semester's change of schedule period. Credit will not be granted retroactively.

Student and professor should check each box to indicate agreement with the following requirements. Note that *these are the minimum Honors College requirements* for experiential learning electives and *a course may require more than is listed here in a given assignment*. If that assignment goes beyond what is listed here, the student must complete the longer assignment. The professor is responsible for grading all assignments, except for the poster presentation at the Celebration of Scholarship and Learning, which is evaluated by the Honors College. Even though it is not a graded part of the class, this presentation must be completed before a class will appear on the student's Honors College academic record.

Student Professor (each must check all boxes under their status; both must sign)
