

## SKY SCRIPT: APRIL 2022

TU is launching the STRATUS project to streamline and modernize existing business systems, starting with PeopleSoft Financials. Here's what you need to know about the project, and how to share it with your colleagues.

### WHAT'S NEW

#### TRAINING IS ON THE HORIZON

Training sessions launch in late May on STRATUS navigation and chart of accounts, plus how to handle expenses—including travel, employee reimbursements and procard—and more. You'll learn how to use the system and get comfortable completing tasks. Plus, get your questions answered by functional experts along the way. Stay tuned for information on training opportunities.

#### LET'S TALK ABOUT BUSINESS PROCESSES

Working in STRATUS will streamline and standardize efforts and increase efficiency - and will also bring a change to some existing business processes. As you complete the upcoming training sessions, take note of possible future updates to your department's processes. Connect with a change agent to learn more about potential process changes within your department or suggest process updates.

#### ARE YOU A CHANGE AGENT NETWORK MEMBER?

If so, that means you're an important part of the STRATUS project! Colleagues might ask you STRATUS-related questions. You can find answers in the resources on the Change Agent Network webpage or bring questions/feedback to the monthly Change Agent Network meetings so we can make sure you're equipped with what you need.

### PROJECT UPDATE

- Training opportunities start in late May.
- System Integration Testing wraps this month. User Acceptance Testing is up next.
- Go-live is on track for July 2022.

Check [towson.edu/STRATUS](http://towson.edu/STRATUS) for more project updates.

### STREAMLINED

A single system for invoices.

### EFFICIENT

Notifications surface items needing attention, making it quick and easy to complete tasks.

### MODERN

Expense documents will be stored in the STRATUS cloud, available for retrieval on demand.
