Roommate Group Overview

If you have a specific roommate or group of roommates that you would like to live with, you must first create a Roommate Group. Based on the size of your group, you will only see rooms large enough to accommodate your entire group.

In order to create your Roommate Group, you will need to have the TUID or Email address for each student AND the Roommate PIN for each student.

- You are allowed up to 7 roommates in your Roommate Group.
- Click the green plus to add each roommate to your Roommate Group.

If a member of your Roommate Group does not remember their PIN, have them login to the Student Housing Gateway and click on the link that says "Forgot your PIN?"

https://webapps.towson.edu/shg/

The Housing and Residence Life Office does not have access to roommate PINs. This is the number each student created when they paid the Housing Deposit earlier this year.
