Subject: [@students.towson.edu](mailto: @students.towson.edu) Attention, malware ID gG4YhP3yVx ← Weird Subject format

[@students.towson.edu](mailto: @students.towson.edu)

Your computing device has been infected by the injurious application .

Whats amiss?

I deposited the malware on a [web portal](#), you pressed the entry and urgently installed the malware to your laptop computer .

This badware make your front-facing camera filming and I possess a record [with your details in a database](#)

During the next 5 hours the badware possessed all your contact numbers numbers ← The word numbers is repeated twice

As you can see, I receive all your contact files [now if you have a desire me to destroy all the contact information](#) send me 394 USD in BTC cryptocurrency. ← Requesting money for services

Other way I am going to deport the clip to all your relatives ← Bad grammar

I give you mine Bitcoin address - [You get 28 hours after getting this. In a case if I get money I gonna](#) crush the clip once for all. ← Bad grammar and sense of urgency

I ask pardon for my mistakes- I'm from China ← Sender is apparently from China

P.S. t his electronic address, I have pilfered it. ← Stolen e-mail address
