## Performance Dashboard

---

The performance dashboard shows you all users enrolled in the course, including Teaching Assistants, Librarians, and Instructors. Here, you can keep up-to-date on all users activity inside your course.

### Using the Performance Dashboard to track student's performance

1. Navigate to <https://blackboard.towson.edu/>.
2. Enter the desired course.
3. Under **Course Management, Evaluation**, select **Performance Dashboard**.
4. If you click on a certain column, it will organize the rows by that column.

LAST NAME	FIRST NAME	USERNAME	ROLE	LAST COURSE ACCESS	DAYS SINCE LAST COURSE ACCESS	REVIEW STATUS	ADAPTIVE RELEASE	DISCUSSION BOARD	CUSTOMIZE RETENTION CENTER	VIEW GRADES
-----------	------------	----------	------	--------------------	-------------------------------	---------------	------------------	------------------	----------------------------	-------------

Figure 1

**Last Name, First Name, and Username:** Displays the user's first and last name, and username needed to log into Blackboard.

**Role:** Displays the specific role the user has in your course.

**Last Course Access:** The last date and time the user accessed your course.

**Days since Last Course Access:** The number of days that has passed since the user last accessed your course.

**Review Status:** Displays the number of items your student has marked as "Reviewed". (Review status must be enabled in your course.)

**Adaptive Release:** The icon will show you the tree overview of your course and how far the student has advanced through the course.

**Discussion Board:** This number will show you the list of all the user's discussion board posts. Clicking on the number will take you to the full list.

**Customize Retention Center:** This provides information about the Retention Center reports. The number listed shows you the number of rules in the Retention Center they have triggered.

**View Grades:** This icon will take you to the Full Grade Center.
