Creating a Wiki For Students

Creating a New Wiki
1. Navigate to blackboard.towson.edu.
2. Enter the course you would like to create a wiki in.
3. Enter the content area you would like the blog to appear in.
4. In the menu at the top, under Tools, select Wikis.
5. Select Create New Wiki.
6. Give the wiki a Name.
7. Enter Instructions for the wiki, if necessary.
8. Set up the Wiki using the options below.
9. Click Submit when finished

Wiki Date and Time Restrictions
Wiki Availability: Set the availability of the wiki for the students
Please Note: If you are using date restrictions, you must set the Availability to Yes, otherwise the wiki will not be made available after the "date after" time has passed.
Limit Availability: Allows you to set date and time restrictions of when the wiki will be available to students.

Wiki Participation
Student Access: This setting controls the student’s ability to edit the wiki. If you would like them to edit the wiki, select Open to Editing. If the students should not be able to edit the wiki, select Closed to Editing.
Student Comment Access: This controls the student’s ability to comment on the wiki. If you would like them to be able to comment, select Open to Commenting. If the students should not be able to comment on the wiki, select Closed to Commenting.

Grade Settings
No Grading: This wiki will not be graded and a column in the Grade Center will not be created. (This is the default grading setting)
Grade: Points Possible: Allows you to grade the wiki. A column in the Grade Center will automatically be created. You will also be given the option to set the number of page saves per student before the “Needs Grading” icon appears and set a due date if desired.
Linking to the Wikis Page vs Linking to a Specific Wiki

Once you've finished creating the Wiki, you'll be taken back to the page that asks you to choose between linking to the Wikis page or to a specific Wiki. Linking to the Wikis Page creates a link to the "Wikis" tool inside your content area. This will allow students to see the whole list of Wikis available to them. Linking to a wiki allows you to choose a specific wiki to link to, instead of showing the students the whole list of wikis.

1. Select **Link to the Wikis Page** or **Link to a Wiki**
2. If you select **Link to a Wiki**, choose the **Wiki** from the list
3. Click **Next**
4. You can change the **Link Name** if desired
5. In the text box, you can provide information to your students
6. Choose the **Availability** of the link and enter **Date Restrictions** if desired
7. **Track Number of Views** will show you the number of times all users in your course have clicked on the link (you will receive one overall number, not individual numbers for specific users)
8. Once finished, click **Submit**
