Introduction

Enabling an assignment folder grants students the ability to record and submit content to a Professor's Folder. Students cannot access or view other students content while in an assignment folder. This tool can be used to make assignments more interactive and engaging - enabling students to submit multimedia projects individually or in teams.

Creating an Assignment Folder

To create an Assignment Folder, you must first log in to the Web Management Interface.

1. From your favorite browser type towsonu.hosted.panopto.com.
2. Click the Sign In using Blackboard option. You will be prompted for your Blackboard credentials.

Figure 2
4. Make sure the **My Folders** tab is selected in the **Browse** menu. Click on the folder you wish to create an assignment folder for. The folder contents will appear.

![Figure 3](image)

5. Click the **Settings** cog icon in the upper right corner of the screen. The **Folder Properties** screen will appear.

![Figure 4](image)

6. Click the **Create Assignment Folder** hyperlink to create an assignment folder.

![Figure 5](image)
7. An assignment folder will be created using the same name as the course with [assignments] appended to the name. Students and other creators assigned to your Blackboard course will now be able to login, download the Panopto Recorder and submit recordings to this folder.
