Introduction
While every Smart Classroom differs, there are a few common elements to the classroom look and feel. In this self-help document you will be given a tour of a typical instructor station setup.

Typical Equipment
Typical equipment will consist of the following:
(note: classrooms vary by location)

- Projector
- Display screen (motorized or non-motorized)
- Speakers
- Wall plate for auxiliary audiovisual input connections or Cable Cubby w/ Ethernet, USB, HDMI, 3.5mm audio, RCA, VGA, and power connections
- Basic wall-mounted push button control system or Crestron TPS-6L LCD touch panel controllers
- Podium with built-in computer/monitor or Monitor on Articulating arm
- Document camera—WolfVision or Elmo

Instructor Station
An instructor station won’t always look like the image below, but all will have similar components:
