Introduction

The Sponsored Group Management Tool allows individuals to view very basic information about groups in Active Directory (a system which contains all NetIDs, computers, and groups for the Towson University network). Groups can be used for Email (such as a distribution list) or to provide security (such as who can access a file share). Faculty/staff who are sponsors of groups will use this tool to maintain their groups' membership and sponsors.

Logging In

The Sponsored Group Management Tool is a web based tool accessible from any browser.

1. Visit towson.edu/netid from your preferred browser.
2. Select Manage Sponsored Group Membership (for individuals who are responsible for maintaining a group) from the Faculty/Staff NetID Tools section. A login screen will appear.

3. Enter your NetID and Password and click the Login button. Note: Make sure you use your NetID and not your full Email address when logging in.
4. The Sponsored Group Management Tool page will appear.

**Modifying a Single Group**

A sponsored group can be modified by adding additional sponsors (administrators), or adding members to the group.

**Selecting a Group**

1. To view or update a single group, click the name of the group to view its group details page.

![Modifying a Single Group](image2)
2. The **Sponsored Group Details** page appears. Here you can email yourself a group summary report, add or remove a sponsor, add or remove a group member, update notes used to store additional details about the purpose and usage of the group and add an audit note (if the group is marked sensitive).

Other Administrative Duties

As a group sponsor, you may have a need to utilize other administrative responsibilities, depending on the type of group you have.

**Send Group Summary Report**

A group summary report details the list of every sponsor and group member in the group. This tool will include everything on the group details page.

1. From the **Sponsored Group Details** page, click **Send Group Summary Report** from the **Name** section.

![Figure 20](image)

2. The **Email Group Summary** window will appear. Enter the email address you would like to send the report to and click the **Generate and Email Report** button. **Note:** If you would like only a list of the group sponsors and members, place a check in the box beside **Send group membership details only**.

![Figure 21](image)

3. The report will be emailed. Click the **Click here to close this dialog box** hyperlink.

![Figure 22](image)
Adding Notes

Notes are used to store additional details about the purpose and usage of the group beyond its basic description. Notes can be added by a Sponsor and they are totally optional.

1. From the Sponsored Group Details page, click Update Notes from the Notes (Additional Description) section.

![Figure 23](image)

2. The Update Notes window appears. Add a note and click the Update button.

![Figure 24](image)

3. The note will be added. Click the Click here to close this dialog box hyperlink.

Adding an Audit Note

For groups that are marked sensitive, auditing by the sponsor is required periodically. Adding an audit note confirms that the sponsor has reviewed the group's membership and sponsors and confirmed they are accurate to the best of their knowledge. Sponsors will receive an email reminder to perform an audit and add an audit note.

1. From the Sponsored Group Details page, click Add Audit Note from the Audit Details section.

   **Note:** If the Audit Details section does not appear, you are not in a group marked sensitive.

2. The Add Audit Note window appears. Add an audit note to indicate that you have confirmed the group members and click the Add Audit Note button. The current date/time and your name will automatically be attached to the note.

3. The audit note will be added. Click the Click here to close this dialog box.
