

Search for Your Vehicle

Vehicles participating in the [Tigers Go Green](#) program must have **SmartWay Elite** status. A standard SmartWay designation does not meet the program requirement.

Check Your Vehicle

1. Go to the U.S. Environmental Protection Agency's **Find a SmartWay Vehicle** webpage:
<https://www.epa.gov/greenvehicles/find-smartway-vehicle>
2. Select the **model year, make, vehicle class and state** that most closely match your vehicle, then select **Search**.
[epa.gov](https://www.epa.gov)
3. Under **Search Results**, locate the **year, make and model** that most closely matches your vehicle.
4. In the **Options** column, select the vehicle configuration that most closely matches your vehicle.

The screenshot shows the EPA's "Find a SmartWay Vehicle" search interface. The header includes the EPA logo and navigation links. The main content area has a sidebar with "Green Vehicle Guide" links and a central search form. The search form is titled "Find a SmartWay Vehicle" and "Search for SmartWay vehicles". It includes fields for Model Year (2024-2027), Make (Select model year(s) first), Vehicle Class (Small Cars, Family Sedans, Upscale Sedans, Luxury Sedans), and State (All States). A "Search" button is at the bottom right. Below the search form, it says "Searching ..." and provides information about the SmartWay program.

Verify the EPA Rating

1. A **Compare Side-by-Side** page will open. Select the **Energy and Environment** tab.
2. Scroll to the **EPA Smog Rating** section.
3. Under **State of purchase**, select the state where your vehicle is currently registered..
4. Review the certification displayed beneath the EPA Smog Rating. The vehicle information will indicate whether the vehicle is **SmartWay** or **SmartWay Elite**.

Tigers Go Green Requirement

The vehicle must be designated **SmartWay Elite** to qualify for the Tigers Go Green program. Vehicles displaying only **SmartWay** do not meet the program requirement.

EPA describes SmartWay Elite as its certification for vehicles that attain the highest scores on both its greenhouse gas and smog-rating scales.
