DROP-IN PAL SESSIONS: Peer-Assisted Learning Sessions (PALS) are weekly drop-in sessions that are led by peer tutors. During each session, a specific topic is reviewed that is related to current material for a particular course. Students can ask questions and work on examples or problems together. PALS will begin February 12th.

MATH 115 in YR104	MATH 211 in YR126	MATH 273 in YR105
Mondays 4pm-5pm	Mondays 3pm-4pm	Thursdays 5pm-6pm

ONLINE TEST REVIEW SESSIONS: Test reviews will be offered for the following courses: MATH 95, 102, 115, 211, 273. Students and faculty members will be notified closer to the test dates. Sessions will be recorded and will mainly be offered on Sundays.

BASIC MATH CONCEPT REVIEWS: These reviews serve as brief refreshers on fundamental mathematical principles that students think they need, ensuring that all students have a strong and consistent understanding of the basics. They are not necessarily course specific; however, they are vetted by course coordinators. The material developed is located in the [TLC math online community](#) and will be accessible to all faculty and students. Every student can view and use the material at any time if they opt-in to be a member of the TLC math community. **Each topic has a video and a worksheet created in conjunction with the video and solutions. In-person sessions will be held weekly for each topic according to the schedule below.**
